CARUSO

Tenor Fined \$10 for
Annoying a
Woman.

NEW YORK Nov. 23.—Enrico Caruso the Italian tenor was found up this morning of annoying a woman in the monkey house at Central Park and was fined \$10 by Magistrate Baker in Yorkville Police Court. Sentence came after one of the most bitter arraignments ever heard in a court in this city.

Deputy Police Commissioner Mattoh in his argument against Caruso declared the singer was a moral pervert who should be kept out of decent society. Mr. Mattoh said that the reason why Hannan Graham had not appeared in court was that she feared to face a crowd of perverts such as commonly attended such a hearing and such a crowd as was then present. The spectators in the court room hissed Mattoh at this remark.

Every seat in the courtroom was occupied and out in the street nearly a thousand persons struggled unsuccessfully to pass the police line established to hold back a crowd. Inside there was a great bouquet of roses sent to the singer and bearing a card on which was written "Take it easy whatever you do. From your friends and the people who know you."

A subscription to buy the flowers was taken up in the court yesterday. When Caruso stepped from his carriage he was cheered by the crowd. There was no hissing. Within the door of the courthouse a messenger presented the big bunch of roses to the tenor but on the advice of Mr. Conried he refused to accept them.

Hannah Graham, the complaining witness, did not appear to press the complaint against Caruso. Deputy Police Commissioner Mattoh informed the court that Mrs. Graham would not be present.

I received information as to the identity of the woman known as Hannan H. Graham and expected to see her in court but learned that she has now left the jurisdiction of this court and I am unable to produce her to day.

Former Judge Dittenhofer Caruso's counsel protested against such an application being made to the court and declared that he did not believe there was any such woman as Hannan Graham unless perhaps it was a woman who in this case is a confederate of Officer Calm.

BLOCK ON BROADWAY IS
SOLD FOR SUM OF \$350,000

Blake & Moffitt Property. Between Ninth
and Tenth Streets, Brings \$1750.
Per Front Foot.

The block of business property on the east side of Broadway between Ninth and Tenth streets, which has for years been a part of the Blake & Moffitt estate today changed hands. It was disposed of for \$30,000.

The papers had been signed only a few hours when the purchasers declined an offer to sell the property at a great advance upon the purchase price.

This is at the rate of \$1750 per front foot.

The purchasers were W. J. Reed, the lumberman and capitalist of this city and a number of business men and investors as associates.

SECOND IN IMPORTANCE

This is the second transaction in importance in the realty history of this city, the deal of most importance being the recent purchase for \$450,000 by Frank J. Woodward of the Macdonough Block at the corner of Fourteenth street and Broadway. That price however included the structure as well as the ground, whereas on the block referred to on Broadway between Ninth and Tenth street there is nothing but one story frame buildings which have little or no monetary value. All of them, however, are money-earners.

The purchasers have decided to improve the property by the construction on it of two modern fire-proof, earthquake-proof 8 and 10-story buildings respectively.

WORKED THE DEAL

The deal was effected through the energetic efforts and business tact of L. G. Brattin of 938 Broadway who has been working in the matter for a number of months and has succeeded where so many others have failed.

For years overtures have been made to the Blake and Moffitt heirs for the disposal of the property but all attempts to induce the parties interested to part with it failed signal.

At one time the late Fred Delger

entertained hopes that with the assistance of others he would be able to locate a modern hotel on the property but the project failed of success.

Meanwhile the adjoining property changed hands and became more valuable daily and that was the case of the block under consideration.

BIG OFFER DECLINED.

Not long ago certain banks of this city sought to secure possession of the property by varied offers of \$200,000 and \$325,000 but the offers were declined.

A few weeks before the death of the late James Moffitt who, in a measure represented the Blake and Moffitt estate L. G. Brattin, above referred to, secured a contract from that gentleman for the sale of the block for the sum specified and the contract was signed by the survivors of the Blake and Moffitt families, and at length, the deal went through.

DIMENSIONS.

The block has a frontage of 225 feet and is partitioned among the heirs on the basis of an approximate one-half for each of the families.

The southern half of the property has a frontage of 125 feet with a depth of 125 feet and the northern half has a frontage of 100 feet with a depth of 100 feet.

PROPOSITIONS.

The owners have now a proposition to put up on one half of the property a ten-story class A concrete building, and another offer from parties in San Francisco to construct an eight-story building on the other half of the block.

BROADWAY HOLDS WELL.

This shows that the southern section of Broadway is more than holding its own in the great advancement made by Oakland. The construction of two such fine buildings will be followed by others and before long, that section of the city will be solidly built up with some of the finest business structures in Oakland.

PROTECTION FOR DIVES.

"OLD IN YEARS BUT YOUNG IN SPIRITS" OWING TO THE CONSTANT USE OF **Duffy's Pure Malt Whiskey**

Old Age

Men May Live Vigorous, Hale and Hearty for 100 Years

Prime of Life at 80 Years of Age:

Man thoughtlessly has been dying too young. Dr. Lyman Beecher Sperry in his recent address on the "Science of Life," before the Y. M. C. A. of Chicago, said that man may live possessed of his faculties and useful for 150 years. Professor Elie Metchnikoff, the eminent Russian scientist, after a life of research and scientific study, says that we can successfully combat old age. The fact that a person can live to be over 100 years old in the enjoyment of strength and health has been proven by many of our physicians and scientists and 4,000 half and hearty old men and women, all of whom, either in their practice as doctors or by actual use, have become familiar with the life-prolonging, health-giving powers of Duffy's Pure Malt Whiskey.

VICEROUS AT 108 YEARS OF AGE.

Edward Hoyt, of Unity Corners, N. H., born 1797, and a Hero of Two Wars, Writes:

"An old man's life can be a happy one if he is well, and I have been just as active and strong up to a few years ago as I was during the war in the South. My family and friends are good, and I have the hope to live some time yet. I was born in New Hampshire, now Unity Corners, N. H., in 1797."

"I have been pretty well all my life, but when I began to grow weak my doctor told me it was old age and gave me Duffy's Pure Malt Whiskey. I am taking that medicine now and it is both medicine and nourishment to me. I cannot eat a hearty meal the way I used to, but Duffy's keeps me up and going. I would not be alive without it."

105, FEELS LIKE A GIRL.

Hans' a Fair, Does the Hardest Kind of Housework.

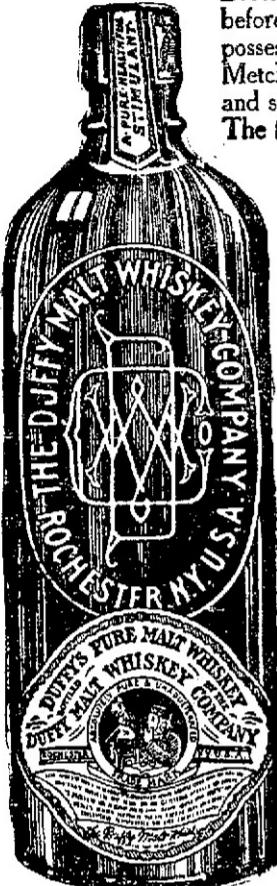

"Gentlemen:—I am 105 years old. I am well, without a pain or ache. I sleep as well as I did when I was a girl. I use your whiskey and like it very much. I never drink water from a well, bring it in wood and do my housework."—Mrs. LOUISE COX, Hintonburg, Maine.

If you wish to keep young, strong and vigorous and have on your cheeks the roses of health, then full possession of your youthful powers you must take Duffy's Pure Malt Whiskey regularly as directed and avoid drugs of all kinds.

It nourishes the vitality, no matter how weak or feeble it may have become; feeds and enriches the blood and stimulates the circulation, giving health and power to body, brain, nerves and muscle. It is invaluable for overworked men, delicate women and invalids.

The absolute purity of Duffy's Pure Malt Whiskey is attested by the fact that thousands of doctors and hospitals use it exclusively and that it's the only whiskey that is recognized as a medicine. It contains no fusel oil.

CAUTION.—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine, which is put up in sealed bottles only. It is never sold in bulk. Dishonest dealers will try to sell you cheap imitations and substitutes, which are put on the market for pure only. If you buy in bulk, be sure you get it from a reliable druggist and grocer. Look for the trade mark, the "Old Chemist," on the label, and be sure the seal over the cork is unbroken. If a dealer offers to sell you Duffy's Pure Malt Whiskey in bulk, report same to us and, when proven, we will pay you a reward.

DESPONDENCY AND OLD AGE

Causes A. Locasaha to Attempt Suicide—His Plans frustrated by Relatives.

An attempt at suicide was made Wednesday by A. Locasaha, an aged man, residing at 1258 Eleventh avenue, with his daughter, Mrs. Duthmette. Locasaha turned on the gas in a heating stove and holding his head over the stove, endeavored to inhale enough of the deadly fumes to end his life.

The rash act was discovered by relatives late, and Locasaha was taken away from the stove in a stupor. He is now on the road to recovery, having been found in time to prevent him from inhaling very much of the poisonous vapor. Despondency and old age is assigned as the reason for the attempt of the aged man on his life.

GIRL'S HAIR MAY PROVE MURDER

Tresses Are Found in Boat in Which Grace Brown Took Fatal Ride.

HERKIMER, N. Y., Nov. 23.—The boat in which Chester Gillette and Grace Brown took the fatal ride in Big Moose lake last Friday was found evidence in the trial. Gillette had been shot. Some thing of sensational was created by the testimony of Robert Morrison, who found the boat. Morrison said he found a quantity of hair clinging to one of the cleats and tongs, and to it in the presence of witnesses. Other parts of the hair still remained in the boat.

PADLOCK PUT ON TILLMAN

CHICAGO, Nov. 23.—Senator Ben R. Tillman, who is to lecture in October, held Tuesday evening for the benefit of the Negro Hospital, will be asked to release all money of the race problem and the lynching question. This action was decided upon yesterday in accordance with the wishes of Mayor Dunn and prominent colored people.

Mr. Tillman's subject will be "Shall the United States Annex Cuba?" It was originally intended that the subject should be "The Race Problem." Senator Tillman will be guarded by police while here.

HOTEL THIEF IS WORKING

Light Fingered Gentry Playing Star Engagement About Hotels of City.

A thief with a penchant for entering lodges in this city and stealing valuables from beneath the pillows of lodgers, operated successfully Wednesday and as a result two reports were made of thefts to the police this morning.

O. G. Smith, of the Grenada House, reported that his room was entered during the night and the thief secured a watch from beneath his pillow, without awakening him.

Charles Gentry, a roomer in the Rudy Hotel at Seventh and Franklin streets, had an experience similar to that of Riedy. A thief secured a watch and \$46.75 from beneath his pillow.

THREE PLANTS ARE DESTROYED

San Francisco is Visited by a \$500,000 Fire at Seventh and Irwin Streets.

SAN FRANCISCO, Nov. 23.—A terrible fire, made all the more disastrous by the high winds which have been sweeping the bay after the two days' rage.

San Francisco lost sight of the fire destroying the glass warehouse of Whittier Coburn & Co. at Seventh and Hopper streets, the Barber Asphalt Paving Company's plant adjoining and the Pacific Coast Glass Company plant on South and Irvin streets. Miles of sheds in the wholesale and railroad district were threatened, and it was only the heroic work of the fire department which saved them.

W. R. Johnson, of 3295 Howard street, who reported the blaze first, claims that he extinguished the flames. In the plant of Whittier Coburn & Co., for which he is night watchman but that the flames rekindled just door in the Barber Coburn plant.

J. Montano, watchman of the Barber plant, succeeded in rescuing three horses from the stables. In leading out a fourth animal, Montano became blinded by smoke, and had it not been for the firemen who rescued him, he would have been burned to death.

The damage of the Whittier-Coburn Company amounts to \$500,000, with but little insurance. The damage to the other firms is also very large, but the exact figures are not now known.

LAD SAYS LORD ORDERED TORCH

Youth Arrested for Setting Many New York Fires Confesses Crimes.

NEW YORK, Nov. 23.—Walter E. Flinney, 23 years old, who, the police declare, has informed them that he has a mission from the Lord to "cleanse and chastise by fire," was arrested, charged with setting the series of fires which created consternation and did considerable damage in the vicinity of Twenty-third street and Eighth avenue early yesterday. The police say Flinney has confessed he set one of the fires and that was probably when several houses were burning, and also at numerous other fires in the upper West side within the past few weeks.

Flinney was arrested in the hallway of a tenement house in Seventeenth street between Franklin and Harrison. Strangely, he had attracted the attention of a policeman who followed him while he entered the hallway of the house.

The police declare the boy confessed to setting fire to the tenement house at 330 West Seventeenth street yesterday.

He is quoted by the police as saying he was passing 330 West Seventeenth street when the Lord told him to "cleanse and chastise them by fire." He went into the hallway, he is said to have told the policeman, and then set fire to the gas jet and set fire to the place.

Flinney lives with his widowed mother not far from where he was arrested.

SALE OF LINE IS PERFECTED

United Railroads, It Is Reported, Buys California Street System.

SAN FRANCISCO, Nov. 23.—The announcement was made yesterday through local financial circles that the deal whereby the United Railroads would take over the entire property of the California Street Railroad system has been consummated. This sale has been in prospect for several months, and the only thing that stood in the way was the matter of finding an equitable price for the property.

The California street system, with its five and a half miles of track, had long been paying investment, but it lost property, including power house and car barns, in the construction of the stock yard, comparatively high in the market. It was about \$200 before the fire, and lately \$160 was asked and \$136 bid for it.

AGED MAN FOUND DEAD IN HIS ROOM

SAN DIEGO, Nov. 23.—James Tracy of Bonita, who has been making his home with Charles Edwards, was found dead in his room this morning when a member of the family went to call him for breakfast. Death is supposed to have been caused by old age. Tracy was 84 years old. An inquest will be held.

HOT RACING ON ROLLERS

Leaders at Lakeside Rink Are Separated Only by Fraction of a Mile.

With only two laps separating them, four leaders in the skating contest at Lakeside rink are nightly giving large crowds of spectators grand sport. Close behind are five other racers, any one of whom may by a spur upset calculations of those now in the lead. Fast laps have been made since the race started, and when it finishes, Sunday night, it is expected that one or more of the contestants will come out with a record, as well as a purse or gold.

From now on it will be a case of each one doing his best, and a bad ten minutes will spoil one's unfolding. The racing is from 9 to 9:15 each night and does not interfere with the regular skating period. The standing to date:

PLANS ADOPTED TO IMPROVE OAKLAND HARBOR

Sum Asked Less Than Estimates Made by Government

An agreed plan and adopted resolution were passed at the meeting of the Harbor Commissioners of the Oakland Chamber of Commerce yesterday afternoon, by which the Congressional representatives from California will have a definite and set proposition to put before the Rivers and Harbor Committee when they meet the first of next week. The Chamber of Commerce will also endorse the association's plans and estimates and telegraph the same to Washington.

BIG OWNERS PRESENT

The Oakland Harbor Improvement Association invited property owners from along Oakland's water front to come together yesterday and express their idea as to how and where the channels should be deepened and widened. The largest owners of water front land manufacturing plants, railroad officials and the Congressional representatives manifested a great interest in the plans and estimates.

Among those present when President Hugh Hogan, who is president and manager of the Hogan Lumber Company, called the meeting to order soon after three o'clock yesterday afternoon, were Senator George C. Perkins, Congressman Joseph R. Knowland, Edson Adams, president of Farmers Bank, George D. Gray, lumberman and steam schooner owner, W. F. Herrin, head of the Southern Pacific law department, J. A. de Fremery, large land owner and construction man along Oakland water front, H. F. Fortmann, president of the Alaska Packers Association, William J. Casey, president of Union Gas Engine Works, Gen. Oscar S. Long, president of the Pacific Steel and Wire Company, John Mitchell, chairman of Board of Supervisors of Alameda County, Mayor Frank Mott, F. A. Leach Jr., manager of Oakland Gas Light and Heat Company, Bernard P. Miller, one of the vice-presidents of the Realty Syndicate, Wilbur Walker, secretary of the Merchants Exchange, Virgil Boggs of the Western Pacific, Charles S. Fox, general passenger agent of the Southern Pacific, E. E. Calvin, general manager of the Southern Pacific western division, J. W. Phillips, president of Graysor Ower Company, the cattle and meat dealers, W. W. Garthwaite, president of Oakland Bank of Savings, W. G. Palmer, vice-president of Central Bank, H. C. Capwell, banker, George Roeth and other business and commercial men of the bay shore.

TELJS PURPOSE OF MEETING

Chairman Hugh Hogan called the meeting to order and stated its purpose to prepare plans that they could unite upon before sending them to Congress for the long-looked-for appropriation.

ESTIMATES ARE READ

Secretary Stearns of the Chamber of Commerce read the following three estimates which have been discussed at previous meetings but now one must be decided upon:

Estimate No 1—Channel 500 feet wide and 20 feet deep at low water from San Francisco bay to Fallon street, Oakland; thence 300 feet wide and 17 feet deep to tidal basin; thence 300 feet wide and 12 feet deep around tidal basin.

San Francisco bay to Fallon street
481,800 cubic yards hardpan at 40 cents \$192,680

25,182 cubic yards sand, at 10 cents \$2,518

1,335,480 cubic yards mud, at 6 cents \$80,127

HAS MONEY LEFT.

Mr. Casey told the meeting \$431,000 was all that was spent from the \$968,000 of the last appropriation according to the statement of balance held.

The unexpected balance on project No 3 is \$176,000 which Mr. Sessions asked how it would be spent.

SENATOR PERKINS SPEAKS

To inform the commissioners what Congress wants of them in regards to the various plans was the subject of Senator Perkins' remarks.

He said Congress wants the people of Oakland to work in harmony. They must have definite plans or composite plans so as to know how to appropriate the money.

The commissioners must get together now, continued the senator, and put the proposed improvements in one plan so the congressional delegation can work to accomplish results. Other interests say twenty or

Five hundred feet wide, 25 feet deep, from Chestnut street to Fallon street 150,000

Three hundred feet wide, 25 feet deep, from Fallon street to tidal basin (Tenth avenue) 20,000

Total \$165,000

Add 15% for contingencies 60,750

Amount \$224,750

Estimated cost of Oakland harbor improvements under plan No 3 (adopted by Congress in 1901, and which is now nearly completed), was \$968,203. Of this amount but \$431,000 has been expended leaving an unappropriated balance of about \$537,203, showing that the improvements in the above estimate can be accomplished within the original amount approved by the River and Harbor Committee and virtually adopted by Congress.

Amount approved by Congress \$968,203

Amount spent \$431,000

CONGRESS DID NOT ADOPT PLAN

Congressman Knowland informed the meeting that Congress did not adopt estimate No 3 or any plan. It passed the Senate, but the House did not pass on it, but it can be said that the bill was practically adopted. The present situation has a 300-foot wide channel 25 feet deep and 20-foot channel on the sides making a channel 400 feet wide.

CASEY PLAN DIFFERS.

Mr. Casey pointed out where his plan was a change from that of estimate No 3. Eight new wharves and a large lumber wharf that now have only eight feet of water will have seventeen by his plan and what they want is immediate shipping facilities.

FORCED TO USE SMALL SHIPS.

President and Manager Rutherford of the California Cotton Mills, pointed out what a big expense existed in having to use light draft vessels to dock them at his mill and the money expended to handle the materials.

He said, "I have figured the loss we sustain by shipping on small ocean-going vessels. In the past twenty years I think a conservative figure will reach \$40,000. I have waited that long for a deep-water channel and am willing to put up with a while yet in order that we may be positive before submitting definite plans."

GROWING INDUSTRIES.

"Industries of all sorts are coming to Oakland at the present time. They

think should not have been done."

NOT 500 FEET FOR BASIN.

Congressman Knowland stated that the proposed estimates did not call for a 500-foot channel around the tidal basin.

Senator Perkins said that at this session it would be impossible to

penetrate the hard pan. After the

channel is opened up there is 200 feet

others must dig out. If the government opens up the channel, the people

"Faith in California."

Some of our contemporaries are printing arguments to prove that investors and home-seekers should have faith in California. They are superfluous. An argument where there is no debatable question is merely an academic exercise. The desirability of California as a place of residence and a field for investment is not open to question. Production here is more varied and prolific than in any area of equal extent on the globe. Capital yields as large returns as can be looked for in any established community with fixed pursuits. Our climate is the most delightful and healthful in the world, and social conditions here will stand comparison with those of the most favored and civilized land.

Dread of earthquakes is the only drawback to a country that is nearer perfection in other respects than any other. This fear is mainly unfounded. During a century only thrice have seismic disturbances been of sufficient violence to cause loss of life and property. In each case the disturbance was confined to a limited area, and in every instance the loss of life and property was comparatively small. More people have been killed and more property has been destroyed by tornadoes in Missouri during the last fifteen years than can be charged to the account of earthquakes in California during the past hundred years. The vicissitudes of life are far less hazardous in this State than in any other section of the Union. Existence is less strenuous than elsewhere, and a livelihood is procured with unexampled ease, owing to the generosity of the climate and the fecundity of the soil. The advantages of residence in this State do not call for argument.

Commercially and industrially, the future of California is secure. San Francisco bay is the gateway to the Orient and always will be. On its shores is destined to be the commercial capital of the Pacific. The argosies of the world will center here, and the great railway systems of the continent will meet the shipping of the Eastern seas at our wharves. All these are self evident propositions. Why argue for faith when there is no room for doubt, when destiny is being so speedily fulfilled that dreams become realizations ere we have time to think about it?

No it is not faith but works that we need. We have certainty to build upon, and are not dependent upon faith. Let us put our hands to the plow instead of preaching faith. That is the way to bring the dreams or hope to a speedy fulfillment. Here is the land and there the sea and above heaven's blue sky, the whole affording a prospect enchanting to the imagination and boundless in possibilities.

It was faith that led the children of Israel to the Promised Land but it was something else that built the City of David and reared Solomon's Temple. That something is what we want in California.

President Roosevelt again announces that he will not be a candidate to succeed himself. This is the first time Teddy has persisted in being on the unpopular side of a public question.

Some Republican Losses.

Five strong men will be missing from the Republican side of the House of Representatives in the next Congress. General Grosvenor of Ohio was defeated for renomination and his successful opponent failed of election. James T. McCleary of Minnesota, Joseph W. Babcock of Wisconsin and Charles B. Landis of Indiana will be succeeded by Democrats. James W. Wadsworth of New York will be succeeded by an Independence League who has heretofore been a Republican. McCleary, Landis and Wadsworth are pronounced standpatters while Babcock is a tariff revisionist and was a leader of the Republican insurgents at the last session of Congress.

General Grosvenor who is also a standpatter, will be succeeded by a Democratic tariff reformer but there is no significance in that as there is every reason to believe that Grosvenor would have been easily re-elected had he been renominated.

While the Democrats will be materially strengthened numerically in the next House having made a net gain of thirty members which gain will be increased when the Congressional elections in Oklahoma are held they have not increased their debating power. On the contrary, they have lost two or three good men. On the other hand the Republicans have received no accessions that compensate for the experienced leaders lost in the late election. They have made gains in the Senate, however which far more than offset the losses suffered in the House.

A SUGGESTION FOR SUNDAY NEWSPAPERS

EDITOR TRIBUNE. Several articles have appeared in THE TRIBUNE relative to the subject matter of the Sunday issue. All who have ever been connected with newspaper work must, of course, realize that it is the province of the daily paper to supply what the reading public demands and that in order to succeed it must cater to the demands of the greatest number. For this reason the attempt to publish what is called a reform journal, unless undertaken from purely philanthropic motives usually ends in disappointment.

Nevertheless it must have become apparent to most persons that there is at the present day a growing demand for reading matter pertaining to religious and philosophic subjects, and while we would not presume to advocate the abandonment of the "comic supplement," the "sporting news" or the sensational pages, yet there can be no doubt that if we could have in addition one or two pages devoted to religio-philosophic or kindred subjects, many would read them with deep interest who are not at all interested in the other departments.

There are today as many different religious cults as there are varieties of breakfast food, and each has its adherents. The day has gone by when it was considered bad form or an evidence of ignorance to speculate as to the nature and attributes of Deity, to discuss the probabilities of personal immortality, to inquire into the possibilities of spirit communication or to question the meaning of Christ's mission. It can do no one any harm to study these matters so inclined and it is far more scientific to ascertain definitely the beliefs and opinions of others than to condemn them unheard and in toto.

Whether or not such a department if inaugurated in the SUNDAY TRIBUNE would prove a success, would depend largely upon whether those interested in such matters would take the trouble to write for it. This could only be determined by experiment, but it is quite probable that if their articles were received with respectful consideration, a sufficient number of contributions to furnish material for at least one page each week would be forthcoming and we believe that the interest manifested in such a department would soon convince you that it would be worth while to make it a permanent feature of your paper.

ADELLE WILLIAMS WRIGHT.

The Harbor Improvement Meeting.

The meeting to promote the improvement of Oakland harbor, at the Chamber of Commerce yesterday afternoon, should produce the desired results. It was representative in every respect; earnest and animated by a united feeling. Behind those present at that assemblage is a compact public sentiment generated in a rapidly growing population of more than 250,000, a public sentiment that is aroused to an aggressive pitch and charged with the animating consciousness that the demand for the speedy improvement of Oakland harbor is neither unreasonable nor untimely.

Our representatives in Congress will deliver in Washington the message formulated by the representative citizens of this community. They will insist upon the request therein contained being granted. They will explain the situation and the pressing needs of the city. They will make Congress understand that Oakland is a bustling commercial city, fully awake to its possibilities and alive to what it has a right to ask of the national government. Fortunately they are men of force and influence, and are in a position to render their constituents conspicuous service at this time, in this particular matter. But after all the commission they hold derives its impressive quality from the organized and united public sentiment which authorized it. Harbor improvement has not only become an urgent necessity, it is a matter which we have a right to ask the government to give us without delay.

The sum required to complete the contemplated scheme of improvement, \$524,000, is small compared to the needs of the community and the importance of the results to be achieved. Congress has already approved the plan, and by making appropriations to partially carry it out has virtually given a pledge to appropriate the remainder. When that plan was approved the necessity for increased harbor facilities was as nothing to what it is now. At a bound the city has sprung forward a decade. In a few months it has reached a stage of development not anticipated for many years at the time the plans were prepared. At that time it was expected that growth and development would follow improvement. Now growth and development are waiting on harbor improvement, feeling the necessity for it and urging it.

The voice of progress spoke at the Chamber of Commerce meeting yesterday. Its claim is just and its demand insistent. This demand is modest under the circumstances. It is that the 25-foot channel be carried as far as Tenth avenue in the Tidal Basin, and that a 17 foot channel be carried thence entirely round the basin. The reasons why this improvement are imperatively necessary are numerous and irrefutable. They have only to be formulated clearly and presented forcibly for Congress to act. The meeting at the Chamber of Commerce has made it certain that this will be done. However the matter must not be left here. It must be pressed vigorously to a successful conclusion, and every citizen of Oakland and Alameda should assist to the full extent of his influence in forwarding it.

Now that the weather has quieted down, let's proceed to business.

"Trouble is brewing in European Turkey," says a cablegram. Trouble with the American turkey is much more imminent.

The Fresno Republican contends that the more victories the Democrats win at the polls the weaker the Democratic party is. Sometime ago the Republicans asserted that the Democratic party was already dead. Why kill it again by giving it more offices? The defeated Republican candidates in Fresno county will hardly be consoled with the reflection that they were sacrificed to drive another nail in the Democratic coffin. Frank Short, for instance, will hardly think it was necessary to use him as a missile for pelting a dead dog. Mr. Short would probably prefer sitting in the State Senate to being defeated to increase the deadness of the Democratic party.

FENCING UP SIDEWALKS.

EDITOR TRIBUNE. Taking advantage of your invitation to write you on any subject, I register a kick against a nuisance on Telegraph Avenue, in front of the First Baptist Church, where the contractor has fenced in the entire sidewalk and a portion of the street, within eight feet of the car track, forcing persons on the sidewalk to cross the street or pass around this obstruction, to the danger of life and limb.

If this is a nuisance now what will it be when the winter rain sets in with its mud and slush? Very respectfully, W. W. CHILDS

A THOUGHT.

We shall grow wise as the flowers,

Druggists

Propose, Commencing Sunday, December 2nd

To Close all their Drug Stores on Sundays

except between the hours of
9 a. m. and 2 p. m.

A registered pharmacist, however, to be on hand at all hours (day or night) to fill prescriptions or really urgent needs.

Our plan is for "better hours for our drug clerks." But our first aim and duty is to serve our patrons when sick or in urgent need of drug store goods. We have evidenced this for years by maintaining a night clerk service, though it meant a constant pecuniary loss to us, and if we cannot make the move we contemplate and serve you well, we should like to have you say so, frankly, on the coupon we have prepared below.

WE WANT YOU TO MAKE THE DECISION FOR US.

We shall value your opinion and appreciate your courtesy in replying.

WHY WE PROPOSE TO CLOSE:

Since time immemorial drug stores have kept open from early morning till nearly midnight, week days, Sundays, holidays and all; and though conditions have been bettered in almost every other line, in ours the late night and Sunday work remains, and no hours off at other times will exactly compensate for the steady grind when all other people are at rest or recreation.

One day off in seven does not satisfy if that one day be not Sunday.

We have been making week-day compensation for Sunday work. We want to offer something better now in addition.

We want all of our employees—there are nearly a hundred of them—over fifty in our main (Thirteenth and Broadway) store alone, to have a chance to see their friends and families in their homes when they are at leisure—or to go to church if they desire. We think it will make for better pharmacy, for better living—for a better city, and particularly just at this time when a most intense commercialism makes us prone to forget just such needs.

The move we now contemplate will mean a loss to us—a very heavy loss unless our patrons, having approved of it, accord their substantial support to us.

We are willing to make the move, however, if you can adapt your needs to it, and give it your approval.

Fill out the following coupon and hand it to one of our clerks or mail direct to us if you prefer.

N. B.—Insert the word "not" after "I do" if you do not approve the plan.

TO BOWMAN & CO.,
DRUGGISTS:

I do... approve your "Better Hours for Drug Clerks" plan, whereby you contemplate to close your stores on Sundays, except between the hours of 9 a. m. and 2 p. m., and to make deliveries of orders received only between those hours.

POLICE CHIEF FAVORS THE TRIBUNE'S CONTEST

CHIEF OF POLICE WILSON.

Official Thanks Paper for Offer of Motor-Cycle to the Most Popular Officer.

Chief of Police Wilson is taking an interest in THE OAKLAND TRIBUNE'S grand "popularity" contest by offering this paper to the most popular member of the police department. This is what Chief Wilson had to say:

"OAKLAND TRIBUNE: Your great 'Popularity Contest' about to begin appears to me to be a legitimate and proper business for the public to enter, and as the people know the TRIBUNE will manage it, will work for good. I believe the plan a good one, and will be beneficial to all. To THE TRIBUNE because it will add many new friends to the paper; to those who subscribe to obtain votes, for they will have an excellent news medium."

"I am pleased to know THE TRIBUNE has invited us in the way of a motorcycle and thank you for this department.

A. WILSON."

Every coupon in the paper is valuable. Save them up and if you do not know who to vote for now, hold them until an admired friend's name appears in the list which will be published in the column of THE TRIBUNE the first issue next Sunday morning. Watch for this great list, which now includes the names of many persons, whose friends believe they have an excellent chance of winning first prize in the great "popularity" contest.

If names of persons who you desire to vote for do not appear in the list, then put in their names yourself. Enter as many as you like, the more the merrier.

It may be the means of giving a young woman a \$35 piano, a \$75 building lot or a \$50 sewing machine. The rest of this list of prizes appears in the column of sole voters and see the many prizes that are worth while working for your friends.

Start the ball a-rolling by suggesting names and then the contestants will offer their services to help and work for themselves. First of all offer your own name or that of your own family. Do it now and have it appear in Sunday's list.

Remember the 1000 voters that are offered to anyone obtaining a year's paid-up subscription to the TRIBUNE. This does not mean new subscribers, but any one subscribing who desires to pay his subscription in advance. Address all commendations to the Contest Manager, OAKLAND TRIBUNE. PARDON SOUGHT FOR GOUCHE

Petition is Circulated Asking the Release of Young Murderer.

A petition for the pardon of Alan Goucher, alias "Kid" Goucher, a notorious young murderer, is being circulated in Oakland and finding many signers. The trial of Goucher, who is a son of former State Senator Goucher of Mariposa, was a sensational one and will be remembered by all newspaper readers. It was fought by his father and the court seemed very repulsive with pathos, but it was shown that Goucher belonged to an organized band of rough characters, and the testimony which convicted him of murdering Polkerman Robinson was complete in every detail. John Harris, once a saloon man, has charge of the petition and uses as his principal argument the fact that certain other murderers have been shown executive clemency.

U. S. WOOD IS SOUGHT BY ALL

Exports of Product Have Increased 33 Per Cent Over Last Year.

WASHINGTON, Nov. 22.—"Practically the whole world is asking for American wood and its products," says the Bureau of Statistics of the Department of Labor in a statement issued today. "Exports of this character have increased 33 per cent during the nine months of the present year over last year. During this nine months the value of these exports was \$89,000,000. This total is raised to \$100,000,000 when added to the value of American ports to contiguous territories. Ten years ago the total value of exports of this class was \$2,000,000. The bulk of the exports are classed as boards, planks and scantlings, and the next largest item is furniture."

GETS 24 HOURS FOR CONTEMPT

Young Englishman Passes Time in Jail for Not Answering Summons.

Alfred Dingle was brought before Judge Harris this morning and sentenced to twenty-four hours in jail for contempt with a suddenness that sent Dingle into a fit of shivers that left him unable to speak for a few moments after he was taken to the County jail.

Dingle is a young Englishman and drives a coffee and spice delivery wagon. He was included in a jury yesterday, but was busy and forgot to appear. Deputy Sheriff Brown said Dingle got out of his house on Union avenue and found him just starting out with his wagon. Dingle, wagon and spices were taken to court forthwith.

Dingle's evident terror and confusion annoyed Judge Harris, however, and after a few hours in jail Dingle was recalled and released with a mild admonition to learn more of American law than was contained in his English education and his naturalization papers.

THE TRIBUNE'S DOUBLE PAGE

CLEVER BOXERS WILL MEET AT DREAMLAND TONIGHT IN SIX WHIRLWIND BATTLES

"Iron Man," Charlie Dunn, who boxes four rounds with Harry Loague at the Dreamland Pavilion, the fight being one of six promising contests.

Sam McVey who will meet Matt Turner in twenty-round contest on Thanksgiving Day. He has twenty knockouts to his credit.

Brown Will Try to Regain Laurels.

Loren Brown, the speedy little Oakland featherweight, is confident of putting it over Charley Riley, in Dreamland Pavilion tonight. His defeat at the latter's hands was a surprise to his friends who expect to see this battle go the other way. Both men have trained well and are fit to put up a game fight.

Two other popular Oakland boxers who have been training on this side of the bay, will enter the ring. Frankie Edwards, the speedy lightweight, and Harry Loague, who also is in the same class, have hard fights on and are not losing any time getting in perfect trim. The former has a tough customer to plant a haymaker in Jack Rodney, the Ocean View mixer, while Loague meets one of the gamiest and toughest fighters to defeat that ever walked on two legs in Iron Man Charlie Dunn. Charlie is like a bulldog. The more he is chewed up the more determined he becomes and wades into the thickest of the fray looking for trouble.

Walter Stanton is right on edge, and has been busily occupied at Point Richmond in toppling off his preparatory work. He came out of the Murray fight without a scratch, but in Frank Mayfield he will be obliged to do stiffer and more scientific fighting to avoid having his frontispiece battered.

GAME MEN TO HOLD STATE SESSION

FRESNO, Nov. 23.—The Fresno Game Protective Association last evening authorized the signing of a call for a State meeting of all interested in game protection, to be held at Sacramento, December 15, preparatory to the meeting of the Legislature. A. D. Ferguson and W. R. McIntosh, delegates to the recent convention of the State Game Protective Association held at Monterey, said the proceedings of that body were not representative of the game men of the State. They upheld the work of the State Fish Commission, and stated that the movement for the Sacramento convention is upheld by Lieutenant Governor Alden Anderson, and is to be presented to all the county associations.

The Fresno game men are not a unit in the matter. Some of them uphold the attack of the Monterey convention on the State Commission.

JOCKEY CLUB LOSES IN COURT

JEFFERSON CITY, Mo., Nov. 23.—The Supreme court today concluded the suit brought by Attorney General Hadley to oust the Delmar Jockey Club from the State by issuing a writ of certiorari.

Last summer a decision was rendered by the court that the club had violated its charter by allowing betting on the races after the opening of the bookmakers. The decision is said to be final.

The first fall swimming tournament of the Academic Athletic League will take place this evening at Sutro Baths.

George Bromley, Gregory Padilla and Lester Thompson of Lick, Tom Lane, Edward and Thomas Smith of Lowell and J. McWood and H. Maxwell of Polytechnic, athletes who had the success of swimming at heart, held a meeting and formed what is known as the San Francisco Swimming League, an organization devoted to the advancement of swimming among the high school athletes on this side of the bay. The boys arranged things the way they would like the Academic League to do, naming a four-man team, one man for each of the events—100, 220, 440, and 880-yard swims, instead of three men to a team; two swimming tournaments annually instead of one, and relay race to count ten points for first place, six for second place and three for third place instead of five, three and one points, to be laid at that point.

THREE ON A TEAM.

With only three men on a team one of the trio has to swim in two events in order that his school be represented in each of the swims. The reason for desiring the points 100 and 2 in the relay team. Instead of 1 and 1 as stated, it is easier for the members of the second team to make their black letter.

The rules of each student body association requires an athlete to make one point in an academic swimming meet in order to enjoy the privilege of wearing the black letter of the school which he attends. As a relay team is composed of four swimmers, second place would only net three points, just one shy of giving each man an ace.

The move made by the above-named athletes will not easily be forgotten, as their action was the desired effect in two of the three classes. The question of semi-national meets, was raised by the officials of the American Athletic League, and the trouble concerning the points in the relay race will be left for the competing teams to decide tonight. The three-man

team, however, will be required as before.

Or the 2000 tickets that Chairman Tom Lane had printed, 1500 have been sold, which exceed by far all previous sales. The entry list is also very large. Lick, Lowell, Polytechnic, Wilmerding and Oakland have entered full teams—three men for the regular events and four for the relay race.

THEY SHOULD WIN.

With the aid of a little consistent work the swimmers from the California School of Mechanical Arts should land first place in tonight's tournament. George Bromley, holder of the world's intercollegiate record for the 100-yard swim and also the coed intercollegiate record for the 200-yard swim, will win these two events without much difficulty, with McWood of Polytechnic a close second. Third place is open. Kuchel of Lick looks a better winner than most for the place.

In the 440-yard and half-mile races Tom Lane of Lowell, holder of the coast championship in these two events, will offset the number of points Bromley will make for his school. Ditters of Lick should land second in the 440-yard and Maxwell of Polytechnic third. In the half-mile race the second-place man will probably be Ed Smith of Lowell, who swam the distance in fine form last spring, and third-place man Maxwell of Polytechnic.

"The team that Oakland High will enter is an unknown quantity.

The show will be held in the large pavilion at Idora Park, which is admirably suited for the purpose. Entries close November 24 and those desiring to exhibit should record with the secretary, William T. Frost, 472 East Twenty-fourth street, East Bay.

M'Vey Ready to
Meet Matt
Turner.

VALLEJO, Nov. 23.—Sam McVey, who appeared with credit to himself in ring battles against Jack Johnson and Donie Mc Martin, is at the Vallejo White Sulphur Springs getting in shape for his battle with Matt Turner, the heavy-weight champion of the navy for a twenty round combat, to be held in Parfum theater in the city on the occasion of Thanksgiving Day. McVey is now being trained by Frank Carrille, the Berkeley sparkler man, and appears to be in fine shape. Turner has fought ten ring battles here and has won all of them, and where he has been opposed to him he has knocked out every man against whom he has been opposed in less than one round. He has all of the earmarks of a combatant and his style is modeled upon original intent. He is a straight set that is a half pivot swing and which has a sleep producing effect.

SEATTLE, Nov. 23.—Russ Hall, one of the owners of the Seattle baseball club in the Coast League, and Miss Ade Bell Larsen, a beautiful girl from Southern California, were married last evening by Judge George Hall tried to keep his wedding secret, not even confiding his intentions to James Agnew, his partner in the club. After the wedding Hall and his bride spent the evening at the home of Judge Hall. As they were leaving Mrs. Hall inquired as to where they were going on their honeymoon trip. "Never you mind," said Hall. "You will know when you get there."

Mrs. Hall is the sister of the wife of Charlie Hall, formerly a Seattle pitcher and now a member of the Cincinnati baseball club.

ANOTHER BAD PLAY.

"The activity of the management of baseball affairs to explain away the apparent evidence of 'fake' in the game in San Jose last Sunday, adds to the interest of the sport. There were high-spirited and high-souled players who in throwing a ball did not exhibit skill enough to hit the side of a house.

A rumor was circulated about town before the contest that the game was to be thrown; that Stockton was to win; and that should San Jose win, the end of the post series of games would come next Sunday when the rival teams are to meet at Oakland.

MAKING DENIALS, AND EXPLAINING THE
PARTICULAR PLAYING OF SOME OF THE SAN JOSE
TEAM, FOR WHICH IT WAS PROVEN THAT THEY
WERE FAKE.

"Mike Steffani, one of the leading

players in baseball and 'father' of the San Jose team, in an interview in the San Jose News, said as follows:

"Say, that was awful, simply awful. To think that you could say that game was not on the level; and Stockton and San Jose such enemies. That story cuts me pretty deep. I can feel it yet. You probably all what you thought was right, by stating what you heard among the crowd after the game. But you know as well as I do that there are a lot of fans who are always watching. They blame me, or blame Mayer, or blame them, or blame Arrelanes, or some particular player for some play which was unavoidable.

A GOOD LOSER.

"Now, here, I had a sum of money up, and San Jose's chances of winning.

"We did also one of the players, and

Manager Mayer. I'm a good loser, but

do you think I would put up money on a team that I knew couldn't win?

"Frank Arrelanes is not to blame for losing that game. There is a kick

among the fans on the action of Manager Mayer in placing Arrelanes in the box against such an aggregation of league stars as represented Stockton.

"We owe Frank that chance to play in fast company. I have watched

his work ever since he joined the ranks

of the Profs. I have seen him

and develop into one of the fastest

pitchers on this coast. He has been

playing good ball for us all through

the season, and we were sure he would

be right when we gave him the chance

Sunday to make a reputation for him-

AUTO SPEEDWAY WILL ENCIRCLE CLEAR LAKE

COURSE 95 MILES LONG TO
BE BUILT BY THE
AUTOISTS.

Project Is Solution of the Road
Racing Problem in This
State.

The automobileists of California are to have an automobile highway. If the project under way is completed the motorists of the State will have the first highway in the world. Dr. Fordin, of San Francisco, states that: "It has been proposed to build the highway around Clear Lake. The course will be ninety-five miles long and will run the whole distance on private property. Work has been started on the road, which is to be ninety feet wide. Three times around this course will be equal to ten times around that of the Vanderbilt cup course. The road is to have a heavy rock bottom and will be worked up to a good top, which will be thoroughly oiled, so that the whole distance of nearly a hundred miles will be free from dust. The course runs through Soda Springs, Lakeport, Upper Lake, and Lower Lake. The land is owned by the realty company of that place and the course as laid out will not cross any of the county highways, and therefore the automobileists will be at liberty to go any place that may suit their pleasure."

FOR RACING AUTOS.

"The road from Cloverdale to the lake is to be improved so that the automobileists of San Francisco will have good roads all the way from the metropolis to the highway. The intention of those who are building the road is to make a course that will prove an attraction to the racing automobileists throughout the world and induce them to spend their winters in California. It has been proposed to hold a series of road races during the winter and summer months."

"The first race has been scheduled for September 9, 1907. From the present outlook those in charge feel justified in selecting that date for the first contest. The building of this road will prove a solution of the road-racing question in California and will make it possible for those who are after road records to race to their heart's content."

ALL KINDS OF VEHICLES.
L. P. Howe of the executive committee of the Automobile Club of California stated last night that he had heard of the proposed road around the lake, but had not heard that it was to be used as an automobile highway. He said: "I have heard that it was proposed to build a good hundred-mile roadway around the lake to open up that country, but it was not stated that it was for the exclusive use of automobileists. From what I understand, it is to be a highway for the use of all kinds of vehicles—a sort of county highway. As for being an attraction for the racing automobileist there is nothing in that proposition, for the racing of high-power cars only pays when the contests are held near one of the big cities in the East."

"If there are any roads near San Francisco that are in a fit condition for road racing and the automobileists want to hold a contest over them they do not have to apply to the Legislature for permission to use them. Under the law all that has to be done is to get permission to use them. Under the law, all that has to be done is to get permission of the County Supervisors to use the roads on a specified day or days. If the Supervisors think favorably of the proposition they can grant the desired permission. This can be done in the case of racing to Los Angeles, but under the law, without this permission, it is illegal to race over the roads."

Gloomy Gus Mortally Hurt in Fifth Race

By LEE DEMIER.

Yesterday's card was promising, even if distinctive features were lacking, and excellent racing resulted. The best of the afternoon's offerings was reserved for the last. Three evenly matched springers in Hurleigh, Martimmas and Bob Ragan, contested for the \$500 purse.

The other entrants, Augie and Clam-

destine, were as so much dead lumber.

The selling affair at a mile, fourth on the program, in which Orchan, Earl Rogers, Harbor and Rolla were engaged was full of promise. The other races called for no special mention.

A high wind prevailed all afternoon, and fast time was out of the question.

The Frisco brand of climate "butted in" and annoyed the many visitors. The inconvenience was only temporary as tomorrow the genuine Oakland article is sure to bob up again.

FIRST RACE.

Furse, an eastern performer, carrying the colors of W. B. Jennings the popular Emeryville horseman, met defeat in the introductory event; a race for maiden two-year-old fillies. The winner turned up in Christmastide, who ably ridden by Joe McBride, got up to beat the favorite, by a length. Ausa dropped into third position. Time 1:01.

SECOND RACE.

Harry Mack's good looking filly Malish, after bettering honor with Rolla to win the second race. The former looked the best and went to the post favorite at about 8 to 5, while 2 to 1 could be had against the Banockburn filly, Malish had the speed and going right to the front, won as she pleased. Behind her came Jack Keene's Gromoboi at 7 to 1 a place, with Elmidale a close third. Time 1:16 3-5.

THIRD RACE.

Harry Mack, the St. Louis horseman, made it two straight when he annexed the third race with Tavora, at the juicy odds of 16 to 1. L. Williams took his mount to the front early and never let the issue in doubt. Gov. Davis and Tim Joe were best liked and were heavily played. Atkins upset calculations by landing the place from Tim Joe. Time 1:28 4-5.

FOURTH RACE.

Rolla, at the good price of 16 to 1, took this event, the running of which was on after the start. This is the second good thing from the Walker stable this season. Harbor acted badly at the post and spoiled the chances of Orchan. Earl Rogers, the favorite, tried his best on the way and, under the urging of Jockey Knapp, got in time to take show money. Time 1:42.

FIFTH RACE.

The first accident of the season occurred during the running of this race, when Ira and Gloomy Gus got into a jam after the first turn, and fell. Gloomy Gus was severely injured, and after an examination by the local veterinarian it was found he would have to be destroyed. The horse escaped with nothing more than a scase and shakeup. Marondo, The Tribune's best bet and favorite in the betting, got up in time to win by a head. Ira was the easy second from Dufil.

SIXTH RACE.

Burleigh outclassed his field in the closing event, and just lasted to stall off the final rush of Martimmas. The show went to Bob Ragan, who was best of the others. Time 1:21 4-5.

"PRICKLES," SPEEDY PERFORMER AT EMERYVILLE THIS SEASON, FIFTH IN THE SERIES OF TRIBUNE PHOTOGRAPHS TAKEN AT THE RACE TRACK.

PLANNING FOR PUNTING MEET

BERKELEY, Nov. 22.—The executive committee of the Associated Students of the University at a meeting held Wednesday night in California hall, appointed a committee consisting of Cal Haffey, captain, Royall, and Eddie Smith, in charge of the Rock cup punting contest. This committee will arrange the date and select the judges. Some few changes will be made in the rules to comply with the Rugby game.

NEWS FROM BERKELEY AND CITY OF ALAMEDA

DOWN TO DATE JAIL PLANNED

CHIEF OF POLICE VOLLMER
of Berkeley who is planning a modern jail for the college town.

OFFICIALS OF COLLEGE TOWN LOOK FORWARD TO HAVING MODERN PRISON.

BERKELEY, Nov. 22.—If the plans that are now being drawn by Chief of Police Vollmer and Building Inspector Robert Bull for the prison that is to be installed in the new City Hall are adopted, Berkeley will have one of the best arranged, most sanitary and down-to-date jails in the United States. The chief and the building inspector are at present engaged in obtaining from all parts of the country ideas and plans for the model prison.

The basement of the west wing of the proposed new City Hall, which will be 70x150 feet in dimensions, has been allotted for the jail, while the private offices of the Chief of Police, detective bureau, Bureau of Information and officers' apartments will be located in the basement of the north wing.

Spacious corridors and light and airy cells will be the features of the prison. There will be separate corridors and cells for felons and persons charged with misdemeanor and for vagrants and intemperate persons. The sanitary arrangements will be perfect, and Chief of Police Vollmer intends to insist on the strictest cleanliness among the prisoners.

All the heads of municipal departments have been instructed to submit rough plans and suggestions for their office needs, and these will all be embodied, as far as practicable, in the new building. The \$125,000 which is now being raised will cost was provided for at the recent bond election. The structure will be erected on Grove street near the foot of Center street, on the site of the old City Hall, which was razed. Additional land will also be purchased for grounds.

MAN IS STRICKEN AT ALAMEDA MOLE

ALAMEDA, Nov. 22.—William Fitch, whose home is at 97 Oak street, was taken with a paralytic stroke of paralysis at the Alameda mole yesterday afternoon. He was brought to Park street, where it was stated today he was doing well.

U.C. OBJECTS TO A COMBINE

Student Body Disapproves of Proposed Joint California-Stanford Rugby Team.

BERKELEY, Nov. 22.—According to a statement given out by the graduate manager, the student body of the University of California will not give its sanction to the proposed Rugby contest between a team composed of San Francisco Rugby enthusiasts and a combined California-Stanford team. The new San Francisco Rugby team, which recently joined the movement, has received applications from many former players who desire to participate in the contest, and it looks as if two good teams could be formed, with or without the consent of the California graduate manager. If the new team is to play in the California team in the inter-collegiate game could undoubtedly be induced to join with Stanford players to form a varsity fifteen.

HANDSOME RESIDENCE SECTION OPENED

A. J. Snyder, the enterprising real estate broker, is always manifesting his faith in the growth of the city of Oakland as a home place, and has exemplified his faith in the same by his recent purchase of 21 acres of rolling land lying in the foothills adjoining Linda Vista Terrace on the east.

This he has platted into large, deep lots to avoid any crowding of homes, with winding streets, and terraced sidewalks, affording a beautiful view of the Piedmont hills and of Lake Merritt.

Like all tracts which he has heretofore placed on the market, "A. J. Snyder's Piedmont Terrace" by the lake is to have only the best of street work and sidewalks and the building restrictions insure its being a choice place for a home. Its close proximity to the city, being only one and one-half miles from the City Hall, and with double line of car service, Oakland avenue cars on the west and Grand avenue cars on the south, make it most especially desirable for homes for Oakland residents while the project for the Key Route service which will soon close, makes it equally desirable for San Francisco business people. The tract contains upwards of 125 choice lots, from which about fifty have already been sold since the opening of the tract last Monday.

SMALL BLAZE IN BIG BLOCK

Fire Threatens Destruction of Berkeley's Southern Business Portion.

BERKELEY, Nov. 22.—A fire that threatened the destruction of one of the largest business blocks in the southern portion of the city broke out just even-
ing in the rear of the office of Bradbury & Foster, at 3239 Adeline street. The structure was saved through the prompt arrival of firemen and the early discovery of the flames. A high wind was blowing, and the blaze got out and would undoubtedly have caused a big fire had it gained much headway.

It was found that the flames had originated in a pile of excelsior. The monetary loss was small. The alarm was turned in at 8:35 p.m. by Policeman McCoy.

NAVAL OFFICER SERIOUSLY ILL

Colonel Maslin Suffers From Facial Erysipelas as Result of Fall.

ALAMEDA, Nov. 22.—Colonel E. W. Maslin, deputy naval officer at San Francisco, a director of the State Board of Trade and a member of the Board of Free Library Trustees, is critically ill at the Alameda Sanatorium, and grave fears are entertained by the attending physician and members of the patient's family that he will not recover. Colonel Maslin is suffering from facial erysipelas that followed an injury sustained last Sunday by falling from a car. In addition to this disease the patient is afflicted with chronic bronchitis and because of Colonel Maslin's advanced age, 74, and his double ailment, his chances of surviving are deemed remote.

Colonel Maslin is widely known throughout the State, particularly in the northern section, where he lived for many years after coming to California in the pioneer days. He was a trustee and general manager of the State Board of Trade in the early nineties, and has been a member and secretary of the Board of Free Library Trustees over thirty years. He is a popular member of the Unitarian Club. Colonel Maslin has been deputy naval officer at San Francisco under Colonel John P. Irish all the time the latter has held the position of naval officer.

BIG ESTATE IS BE DISTRIBUTED

Mrs. Martha J. Haines and Thornton Haines, widow and son of Eliza A. Haines and executors of his estate, filed a report of their administration of the estate yesterday, which shows the estate's value of \$216,688.39, and that \$56,301.50 is the amount of money on hand. The executors ask the Superior Court to distribute the estate and money balance in compliance with the terms of the will.

Always Was Sick. When a man says he always was sick trouble with his health than anything winter—what would you think? If he should say—he never was sick since using Ballard's Horseradish Syrup. Such a man exists.

Mr. J. C. Clark, Denver, Colorado, writes: "For years I have troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horseradish Syrup and it has had a sick day since. That's what it did for me." Sold by Wishart's Drug Store.

ALAMEDA, Nov. 22.—Mrs. J. D. Parker was considerably bruised in an accident on Wednesday afternoon. She was driving near her home on Pacific avenue when her horse took fright and started to run away. Mrs. Parker was thrown with minor bruises.

Father of a union high school for Richmond is being discussed considerably at the present time. Rev. D. W. Calfee, of the Methodist Episcopal church, has interested himself in the proposition and is circulating a petition asking for a special election and calling for a vote on the matter. It is probable the election will be held some time in December. If it comes to a vote it will probably carry by a big majority.

The construction department of the East Shore and Suburban railway made the connection on the new Sixth street line yesterday and it is expected that the line will be in operation before the first of the year.

The Ladies' Guild of the Episcopal church has been holding forth in the new Montebello hall for the past two days with a bazaar. The attendance has been very good and the booths have been well patronized. An auction sale was the feature last evening.

Father seems to have decreed against Richmond restaurants. A fire yesterday morning in the Oyster Leaf threatened the cafe. Prompt work on the part of employees saved the place.

WIFE GETS DIVORCE AND \$100 ALIMONY

Final decree of divorce was granted yesterday by Judge Ellsworth to Mrs. Mary Georgia Rosser from Charles Augustus Rosser, an insurance man of San Francisco. The woman is allowed the custody of her two minor children for the support of whom and her own living she is allowed \$100 a month as alimony.

Thanksgiving Holidays at Hotel Del Monte

Why not spend your Thanksgiving at Hotel Del Monte? You can enjoy a four days' vacation under the oaks and among the roses by the sea shore. The gold links were never greener, and the oiled roads and shady pathways are most alluring for riding, driving, or automobile.

These late autumn days are most perfect—the weather there was never more delightful than at present.

Trains leave First and Broadway, Oakland daily, at 2:35 p.m., connecting at Santa Clara with trains and through parlor cars which leave San Francisco at 3:00 p.m., arriving Del Monte at 5:56 p.m., passengers changing cars at San Jose and Castroville, arriving Del Monte at 10:04 p.m. Through parlor cars for return trip. You can leave on Wednesday afternoon, November 28 returning Monday. Round trip railway rate is \$4.00.

For further details inquire of any Southern Pacific agent or address George P. Stael, Manager, Del Monte, California.

COURT COMPELS CITY TO PAY STENOGRAPHER HIS BROTHER WINS THE CASE

Judge's Order May Effect Other Berkeley Salaries Held Up.

BERKELEY, Nov. 22.—Joseph Koford, the stenographer to the Berkeley Board of Trustees, has obtained his hard-earned salary through process of court. Yesterday Judge Ogden of the Superior Court granted the petition of the stenographer for a peremptory writ of mandamus to compel Auditor M. H. Heyne to pass on the salary warrants which were held up by the Auditor on the ground that Koford's appointment was illegal. The case was submitted on briefs before the election. Koford was represented by his brother, Attorney James Koford, while Attorney Brewton A. Heyne represented Hanscom.

The case has attracted considerable interest in Berkeley as a number of other salaries were held up at the same time as Koford's for similar reasons. The other warrants will probably now be favorably passed on by the

INDIAN STORK IS AN EXTRAORDINARY BIRD

The Government Liberality Makes Every One of the Redskinned Babies Wealthy.

GUTHRIE, Okla., Nov. 10.—The average value of Indian babies in the new State is something over \$10,000. The Osage papoose is the wealthiest, having to his credit a total of 800 acres of land in addition to ready cash sufficient to make the sum total about \$50,000. On the other hand the child of the Delaware and the Seminole has the smallest amount of this world's goods, each one having forty acres of land and but a small amount of cash.

But on the average, taking the Osage and the Seminole, along with the Creek, the Chickasaw, the Kaw and the Comanche, the value of each redskin infant is far in advance of the collection of babies of any other race of people on earth.

The figures recently compiled by the Bureau of Indian Affairs show that the popular conception that the race of red men is rapidly nearing extinction is a myth, and that on the contrary poor Lo is gradually increasing in numbers. The figures show that the number of Indians in the country is now 280,000, an increase of nearly 8000 in the past six years.

It is believed that this rate of increase will be maintained and that the fears of race suicide for the aboriginal American are groundless. It has been conclusively proven by statistics that with the increase of civilization among the Indians the rate of propagation increases.

The more children the head of an Indian family has the more the land and money to his credit. This fact was foreseen by some of the squaws.

WOMAN QUAFFS DEADLY ACID IN A CHURCH PEW

Despondent, She Chooses Catholic Cathedral Wherein to End Her Life.

KANSAS CITY, Nov. 23.—Miss Nettie Brown, 25 years old, said to be the daughter of D. C. Brown of Lincoln, Neb., committed suicide today in the Catholic cathedral by taking carbolic acid.

Miss Brown came to Kansas City about three weeks ago, and registered at one of the leading hotels. She stayed several days. Later she changed her hotel, going to another first-class

place. At the latter place, without funds, she asked the hotel management to telegraph to her "guardian" in Omaha. The answer from the Omaha man caused the hotel authorities to request her to leave.

Today she attended services at the cathedral. It was noticed that she remained in the church after the congregation had left, but nothing was thought of it. Later, however, she was discovered in a pew, dead.

FREAK DISEASE CURED BY ELOPEMENT IN HIS FAMILY

Shock at His Daughter Running Away Benefitted Man Suffering From "Agoraphobia."

LONDON, Nov. 21.—A gentleman suffering from a "freak" disease has been cured by an elopement in his family. The doctor whose patient the man had been tells the story in a medical journal. The patient was an elderly man and was afflicted with a bad case of "agoraphobia," which is a confirmed dread of open and exposed places, caused the sufferer to sneak through alleys, avoid wide streets, be afraid to cross bridges, etc.

The doctor treated the man for some time and saw improvement, but one day he returned to the physician, who tells the rest:

"I expressed my regret that he had to come back to me, and thereupon his face fell. He said he had had a dreadful shock; a terrible trouble. His daughter had run away from home, and joined a lover. It had been a frightful shock to himself and his wife. Still, he did not look shocked. On the contrary, he appeared complacent and contented. Then the master came out."

"What I have come for, is not to consult you about my health, but to tell you that this shock has completely cured me. I have not the slightest difficulty in going anywhere I like. I can go through wide streets, over the bridges, across Trafalgar square, and even into the parks. I can go anywhere and do anything, just like anyone else; and this recovery came to me suddenly, immediately after I had this dreadful shock. I thought it would interest you to know."

"It certainly did. It is the only case of agoraphobia that I have ever known to recover completely, and the manner of the cure was sufficiently striking. Having congratulated him fully, I proceeded to inquire into the

LIAR'S CHARGE IMPRISONS NUN

Lady Superior Passes Three Years in Jail for Attempted Murder.

BERLIN, Nov. 23.—Fraulein Von Heusler, a Bavarian of noble family, who was lady superior of the Convent of St. Maximilian, near Munich, was brought up this morning for a second time on trial on a charge of attempting to murder her servant, Minna Wagner.

The first trial concluded on March 8, 1903, when Heusler was found guilty of attempting to murder Wagner by poison, and condemned to six years' penal servitude. After serving three and a half years of this term, grave doubt has arisen regarding the woman's guilt. Fresh evidence which has been collected shows that Minna Wagner, who was herself the principal witness at the last trial, was hysterical, mentally deficient, a habitual liar and altogether a weak witness, whose testimony ought never to have been regarded as sufficient to condemn the prisoner.

Fraulein Von Heusler has changed terribly during her incarceration. At the last trial she was cool and self-possessed. Today she is a broken-down, gray-headed, despairing wreck. She frequently broke into tears during the proceedings today, and collapsed altogether from time to time. Wagner is dead, so that her cross-examination, which might have yielded surprising results, is impossible. The case is proceeding.

CUT HER TOE; SHE SUES HIM

Pretty Young Woman Asks \$1619 for Bad Operation by Chiropodist.

PHILADELPHIA, Nov. 23.—Improper treatment of a corn on a foot so dainty that you would never in the world suspect it of having corns was made the occasion for a damage verdict of \$1619 by a jury in Common Pleas Court No. 2 yesterday against a firm of chiropodists.

Mrs. Mary C. Haggart, a saleswoman in a department store, was the principal plaintiff, her husband, Thos. E. Haggart, being associated with her in the suit. It was shown that Mrs. Haggart's foot had been operated on by a young man who was a novice in the business; that he had cut too deeply and drawn blood, and that, to staunch the flow, he used an acid which was not according to Hoyle.

As the result of all this mismanagement, Mrs. Haggart came down with blood poisoning and was in bed for two months. Her husband, who footed the doctor's bills, received \$119 of the verdict, and the rest went to Mrs. Haggart.

ASKS DIVORCE TO WED SOUL TEETH PULLED

Supposed Opera Singer Induces Child to Visit Berlin Dentist.

EX-RECTOR, WHO FLED WITH WOMAN, WOULD LEGALIZE UNION.

Spouse Lives in Poverty While Former Clergyman Prates of Mystic Things.

SEATTLE, Nov. 23.—Henry Austin Adams' application for divorce came up in the courts here recently and was postponed. The writer alleges incomparability, and it is understood that his New York wife will not oppose the suit.

The former rector seeks a divorce in order that his marriage with Gertrude Desch, with whom he fled from Baltimore, may be legalized. This is the young woman whom Adams called his "mystic soul." They have one child.

Adams was rector of the Protestant Church of the Redeemer, in New York, when he brought down upon his head the wrath of Bishop Potter because of his leanings toward the Catholic church.

He later announced his conversion to Catholicism. Then he deserted his wife and children, and, taking with him Gertrude Desch, visited foreign lands.

Previous to leaving New York, Miss Desch lived at his home, and when his wife protested he prated of mystic things, said she could not understand the pure affection he held for Gertrude and called the mother of his children jealous. From the day he left, according to Mrs. Adams, he never sent her a penny.

Adams turned up in this city several years ago, and not long ago it was announced that he had married Miss Desch. He has been successful as a writer. In one of his books he attempts to justify free love. Answering his critics, he says:

"But from your damnable parochial judgment of a man like this, I appeal to God Almighty, before whose throne I would dare face the whole blind, blasphemous, contemptible society that holds that there is goodness apart from fact, and that there can be sacredness apart from life and truth."

Adams has admitted that he is a bigamist. He has not offered any explanation as to why he permitted his first wife to live almost in poverty.

Gertrude Desch is now twenty-one years old, and Adams is close to fifty. Aside from the marks left by the wear and tear of her wanderings, the young woman is beautiful. She is of the dark Teutonic type, with brown hair and large eyes. She is an orphan, and has two sisters living in Baltimore.

Pain from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this.

MOTHER'S ALIBI RELEASES SON

Woman Proves Her Boy Was at Home When Barns Were Burned.

COUDERSPORT, Pa., Nov. 23.—Mrs. Mary Barnes rescued her son, Harry, from both prison and insane asylum by the establishment of an alibi which an admittedly strong chain of circumstances appeared first to disprove.

Her son, who but a short time ago was released from the Western penitentiary, where he served a term for robbery, was taken into custody recently, accused of being the leader of the gang in Hickory and West Birmingham townships that have been terrorizing that neighborhood with a series of barn burnings.

The young man, upon the written statement of two justices of the peace, made to the county commissioners, was arrested

UNWASHED PUPILS ARE UNKNOWN IN GERMANY

Children Are Compelled to Take Shower Baths—Schools Are Fitted Elaborately.

LONDON, Nov. 23.—The education committee of the London county council has issued a report on the bathing arrangements in schools in Germany and Holland.

The report states that the medical officer, Dr. James Kerr, and the assistant educational adviser, Dr. F. Rose, were instructed to visit certain cities in the countries named. They visited 12 cities and 35 schools, and found that every town visited has installations for bathing children at school. In Germany, wherever a permanent water service is available, even in quite small places of 3000 or 4000 inhabitants, such school bathing arrangements exist.

Bathing for cleansing purposes has been sharply discriminated from bathing and swimming as an educational, gymnastic, or recreative exercise. The form of school cleansing bath now universally adopted is the warm, followed by a cold shower bath.

The arrangements necessitate heating apparatus for the water, also washing and drying rooms or apparatus for bathing linen, dressing rooms, and bath rooms. Care is taken that the children do not contract a chill after bathing.

Shower baths have become, in fact, an integral part of physical education in German schools, and in the towns of Berlin, Nuremberg, Munich, Mannheim and Cologne alone, no fewer than 2,631,000 shower baths were given to pupils last year. At Cologne the installations at recently built schools have been erected regardless of expense.

The baths generally include a dressingroom, douching room, wash-

ing room for bathing garments, and drying room, but at Cologne a separate undressing and douching box is provided for every child. In many cases soap, towels, bathing garments and brushes are supplied free, and bathing takes place under the teachers' discipline during school hours. The work is done by special attendants. No charge is made and no compulsion is used, but children under 7 are excluded. It is an interesting sight in schools where entire classes bathe together to see them quickly disrobe and take their places, each under a separate douche, waiting in naked expectancy the flow of blood-hot water.

Parents were at first a little reluctant to let their children take the baths. Fears of chill were generally the cause of hesitancy. But this was quickly overcome, and now they are keen to encourage their offspring in acquiring habits of cleanliness.

For twenty years school cleansing baths have been an institution on the continent, and there is no doubt on the part of teachers or doctors as to the great benefits, both direct and indirect, which result from their use.

There is immediate and noticeable improvement in the school air.

Other countries have followed Germany's lead. Austria, France, Switzerland, Belgium, Holland, Norway and Sweden have in a greater or less degree adopted shower baths in their schools. England, however, stands where she did.

German schools beat English schools generally, the officers report, but are remarkable for the badness of their school air.

No decision has been arrived at by the council.

HER LIFE WAS MINGLED WITH STORM AND SUN

Mrs. Jefferson Davis First Met Her Famous Husband at a Political Meeting.

The life of the late Mrs. Jefferson Davis, whose death occurred recently at the Hotel Majestic, New York, was a peculiarly sweet voice and a winning manner of assuring himself. The fact is, he is the kind of a person I should expect to rescue one from a mad dog at any risk, but to insist upon a stoical indifference to the fight afterward. I do not think that I shall ever like him as I do his brother Joe. Would you believe it, he is refined and cultivated, and yet he is a democrat."

Mr. Davis' age at that time was 36, and he was a widower, having been previously married to a daughter of Colonel (afterward president) Zachary Taylor, who died during the honeymoon of malarial fever. He married Miss Howell in February, 1847. The same year he was elected a member of Congress, and from that time until the outbreak of the civil war the couple spent much of their time in Washington, where Mrs. Davis shone as a social leader. In her memoir of her husband Mrs. Davis gives an interesting glimpse of the seriousness with which the representatives of the country regarded their duties in those days. When the future president of the confederacy was serving as secretary of war, Mrs. Davis, having no other servant at hand to send on an errand, made use on one occasion of one of his attendants for half an hour.

The secretary told her, when he learned of this indiscretion, to engage more servants if she had not enough, but on no account to forget that the servants of the secretary of war were paid by the government to attend exclusively to government business.

During the war Mrs. Davis was exposed to many grave dangers, which she met with great heroism.

the appearance of the firebugs will be the signal for bloodshed.

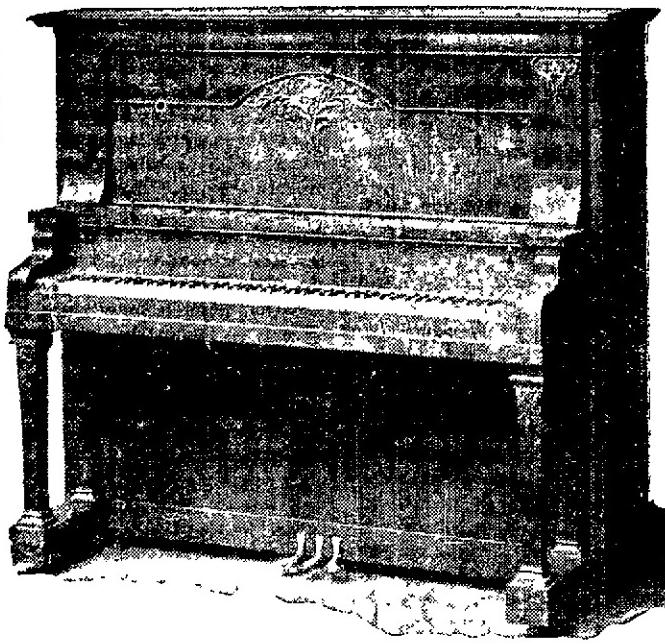

WELLESLEY GIRLS EAT TOO MUCH CANDY

WELLESLEY, Mass., Nov. 23.—Late hours, too much candy and insufficient care in the matter of dress are declared by the Wellesley College newspaper in today's issue to be responsible for the great increase in sickness among the students at the institution.

The editorial, which is thought to have been inspired by the faculty, declared that the girls take many liberties that they could not be allowed at home or at boarding schools. They go to the theatres when they please, to dances and to all sorts of social functions.

They eat too much candy and in this way have weakened their digestion. They wear too rubbers and by this means have taken cold. The editorial declares that the girls themselves are responsible for the conditions now prevailing.

Preparation Sale

The Necessity for Giving It:

Owing to the fact that we sell more high-class pianos than any house on the Pacific Coast, and from all indications there is going to be a great demand for this class of goods, we have ordered very heavily in all of our finest grades. The following shipments just received:

ONE CAR LOAD KNABE PIANOS
ONE CAR LOAD CONOVER PIANOS
ONE CAR LOAD LUDWIG PIANOS
ONE CAR LOAD HARDMAN PIANOS
ONE CAR LOAD OF HARRINGTON & HARDMAN AUTOTONES
ONE MIXED CAR PACKARD, MASON & HAMLIN PIANOS
ONE MIXED CAR OF KINGSBURY AND PRICE & TEEPLE PIANOS.

We are compelled to make room for these goods. We don't claim that we are going to give you a piano for the taking away, nor do we agree to cut our prices two or three hundred dollars on a piano, as we do not mark our goods for that purpose, every piano being marked at cash values, and owing to the fact that we are overstocked with medium-priced goods, we are going to offer a discount from 10 to 15 per cent on most of our medium grade lines. This discount, when being made by the Wiley B. Allen Co., will mean more to you as a purchaser than a 50 per cent discount from some houses, who mark their goods with the intention of cutting their price half in two to every purchaser. Now, bear in mind that in addition to the factory guarantee is the Wiley B. Allen Co. guarantee, which means that if you are not satisfied with any piano purchased at this sale, you can exchange the same any time within three years for any piano of higher grade carried by us and the full purchase price will be applied. We have just completed new salesrooms for our highest grade goods, which gives us the advantage of carrying the largest assortment of fine grands and uprights ever on display in Oakland. The following is a list of slightly used pianos, which we will sell at far below their real values, considering their grade.

One \$275 Sleicher.....	\$195
One fine Ludwig.....	\$335
One \$300 Best Heine.....	\$150
One \$325 Smith & Barnes.....	\$265
One \$275 Thayer.....	\$200
One Hallet & Davis.....	\$40
One Rudolph & Co.....	\$50

Many others which this space will not permit us to mention.

PEARY'S SHIP IS AT SYDNEY

Disabled Roosevelt Makes Port and Explorer is Guest at Banquet.

SYDNEY, B. C., Nov. 28.—Flying the flag of the United States, which had been placed nearer the pole than any other national standard, and disabled, the E.P.A. Arctic steamer Roosevelt, arrived today under steam and sail after sixteen months' vain effort to reach the pole. Though not entirely successful the expedition got to 87 degrees 6 minutes north latitude, or within 203 miles of the pole. The Roosevelt left Port Aux Basques, N. F., at 3 o'clock yesterday afternoon, averaging five miles an hour to Sydney, experiencing light winds and rains. The ship came to anchor off the Yacht Squadron pier. That same hour was early, the Roosevelt. It was soon visited by the American consul and various local officials and an invitation was extended to Commander Peary on behalf of the Sydney Board of Trade to be the guest of the commercial body at a banquet in his honor tonight.

Commander Peary came ashore almost immediately after the steamer came to anchor, and joined Mrs. Peary, who has been here for two weeks waiting for her husband's return.

When asked what he thought of the suggestion advanced in Pidjor-Nansen's first interview to the effect that Peary's latest experience served to strengthen the idea of reaching the pole by drifting, Commander Peary said he always believed there were great possibilities in the drifting theory for men of the temperament to stand imprisonment for several years. For his part, he could not adapt himself to it.

Touching the outbreak of the gale which has unexpectedly come up in the Arctic and destroyed the ice bridge, Commander Peary said the prevailing wind was westerly in the Arctic region, but it was not always of the force of a gale. No person could anticipate the coming of a gale in the Arctic region or elsewhere.

He would not talk about Wellman-Edwards-Harold, the missing planes, as he said he made it a point not to discuss the ideas of other explorers. The commander said his immediate movements were in doubt. He thought he would pay off the Newfoundland members of his crew at Sydney, make some repairs to the Roosevelt, get a new crew and proceed to New York.

Commander Peary looks in the best of health and spirits and though disappointed at the failure to reach the pole, he is satisfied with the advance actually made. Plans for another expedition probably will soon be made.

Dr. J. J. Wolff said the health of the party had been excellent. Dr. Wolff said that he had on the eighteenth of October in the early part of March had out occurred the pole would have been reached without difficulty.

Dr. Wolff said he and other members of the expedition intended to stay by the Roosevelt until she reached New York.

TROOPS FORCE OPEN CHURCH

Parishioners Chant Hymns While Cavalry Takes an Inventory.

PARIS, Nov. 23.—The taking of the church inventories under the law providing for the separation of church and State in the mountainous regions of France, where an abundance of snow has fallen, is progressing slowly on account of the hostility of the population, which compels the troops sent with the State officials to conduct regular military operations. Keep open their lines of communication and bring up supplies.

The church of Divron, near Berst, which had been barricaded for six months, was forced open at daylight by a detachment of cavalry, which dispersed the clerics, who, from a distance, chanted hymns while the taking of the inventory was in progress.

Atrocities of clerics have begun to get attention. In shot of the church of that city because of the violent language he used in protesting against the action of the authorities and the church and State separation law.

MAN PAYS DEARLY FOR RECONCILIATION

PETERSBURG, Ind., Nov. 23.—George Elkins, a wealthy farmer east of this city, has entered into a peculiar agreement. Several weeks ago Mrs. Elkins left his roof, alleging he drank to excess and that she would no longer live with him. She retained attorneys and instituted divorce proceedings. In the meantime Elkins began making overtures looking to a reconciliation. He purchased a fine horse and buggy which he offered to his wife, but she refused to accept it. Then he offered to deed her eighty acres of his finest land, together with \$2000 cash, and further promised to forfeit all of his real estate and personal property to her in case he should resume his dissipated habits. This appeal had its effect, especially after it was reduced to writing and signed, and the principals are again united. They were married twenty years ago and have adult children.

SPAIN'S QUEEN GETS A SILVER TELEPHONE

MADRID, Nov. 23.—Employees of the telephone company have presented to Queen Victoria the most magnificent telephone in the world, made of solid silver. The base, of Louis XV. design, is surrounded by four Hercules columns, at the foot of which sits a small boy supporting the Spanish coat of arms, who is talking through the telephone to a pretty English girl, beside whom crouches the British lion.

The Richness of Pabst Beer

The wonderful richness of Pabst Beer, together with its delicious flavor, makes it so refreshing and wholesome a beverage that one does not care for other beers after using it.

This richness of Pabst Blue Ribbon is due to the Pabst exclusive 8-day malt, which puts all of the nutrition of the barley grain into the beer in predigested form ready for assimilation. Thus, in addition to being a pleasant tonic appetizer, Pabst Blue Ribbon shows the same rich food value as milk, i.e. 12 per cent.

Physicians throughout the United States recommend Pabst Beer in preference to all others, because of its rich food value and because it can be depended upon to agree with the stomach, as it is never allowed to leave the brewery until fully aged and mellow.

The cleanliness of Pabst process appeals to all. Pabst Beer is the cleanest food product manufactured in this country. When you drink a bottle of Pabst Blue Ribbon Beer you can know that from the time it was drawn boiling from the brew kettle to the time it is poured out into your glass it has never been exposed for an instant even to the outside air. Through sterilized pipes it passes to sealed storage tanks—where it lies for months until thoroughly aged and mellow, rich in the food elements of the exclusive process 8-day barley malt, refreshing in the sparkling tonic of choice hops—perfect in age, purity and strength.

Pabst Blue Ribbon comes to you with an appetizing, refreshing zest—a wholesomeness, a healthfulness unequalled by any other beer.

When Ordering Beer, call for Pabst Blue Ribbon.

OAKLAND MAN HAS BONANZA

Charles Ulrich Makes Hit in Play Based on Bank Loot-ing.

From telegraphic dispatches from Chicago it appears that Charles Ulrich, a former newspaperman of San Francisco and Oakland, where several of his plays have been produced within the past ten years, has struck it rich with his dramatization of the Standard bank looting case. His play "The Bank Wrecker," which was produced at the Humboldt theater, Chicago, November 11, broke the record for attendance at that theater and its success was made the subject for editorials in many of the leading newspapers.

Independent of the fact that the play belongs to the sensation class, that is to say, that it is based upon a sensational episode, the critics pronounce it a play of superior merit and fully capable of sustaining itself even were it not backed to a news episode that shocked the country. The story of the play is consistent, the climax strong and the comedy wholesome. It made a deep impression and scored an artistic as well as financial success.

Of course, other managers are after the play, and it will shortly go on the road with a specially selected company. Before the play was three days old, the manager of a Yiddish theater in Chicago arranged for a production at his house and Mr. Ulrich's play now is being translated into Yiddish, a compliment not often paid to American productions. After its reproduction at the International theater in Chicago, the Yiddish "Bank Wrecker" will be taken to New York.

Mr. Ulrich is forging to the front as a playwright in Chicago. His dramatic sketch, "The Deserter," scored a big hit earlier in the season, and his western play, "The Honor of a Cowboy," is doing well in stock. His play, "The Man From Nevada," originally produced at the Dewey theater at Oakland three years ago, is a standard stock attraction and has been repeatedly presented in Chicago.

WILL APPOINT ASSISTANT INSPECTOR

At the meeting of the Board of Health Wednesday night, Dr. E. R. Sill, chairman of food committee, was instructed to draw up a resolution recommending to the City Council that an assistant food inspector be appointed. The Health Board visited many of the bakeries and restaurants around midnight Tuesday night, and their action last night was direct result. It was found that it was absolutely necessary that an inspector be kept at work constantly, investigating the sanitary conditions.

Dr. C. A. Dukes, chairman of the committee which is handling the garbage question, asked for more time, and this was granted.

FUNERAL SERVICES OF DAVID FENSTERMACHER

The funeral of David Fenstermacher, aged 76, who died at 902 Seventh street, November 19, was held last Monday from McMichael & Jacob's funeral parlor, on the twenty-fourth and Grove streets. Rev. Wm. F. Manley officiated. Mr. Fenstermacher was for many years a resident of Oakland and in the electric light business.

15 YEARS' WAIT FOR CITY COIN

Contractors Will Finally be Paid for Vallejo's Original Water Pipe Line.

VALLEJO, Nov. 21.—After fifteen years' waiting, creditors of the city of Vallejo, whose claims aggregate over \$27,000 for labor and materials furnished in building the original pipe line of the municipal water system, are in a fix: way to get their money. This \$27,000 represents the amount of the debts of the city, within which the municipality could legally contract debts at that time, and was caused by poor judgment on the part of the builders of the system. Since that time the passage of a special amendment has granted the people of Vallejo the right to pay that claim and at the special charter election soon to be held thereon. The claims are being settled by residents of San Francisco and Oakland.

INCORPORATED TO DEAL IN REALTY

Articles of incorporation were filed by the Alameda County Realty Company by the three directors of the concern as follows: George W. Howell, George H. Derrick and A. C. Sandford, all of whom are residents of Oakland, where the business of the company will be conducted.

The concern's capital stock is shown by the document filed to be \$100,000, which is divided into ten thousand shares at a par value of \$10. Stock actually subscribed amounts to \$15,000, which is divided among the three directors.

HANDLING DUCKS.

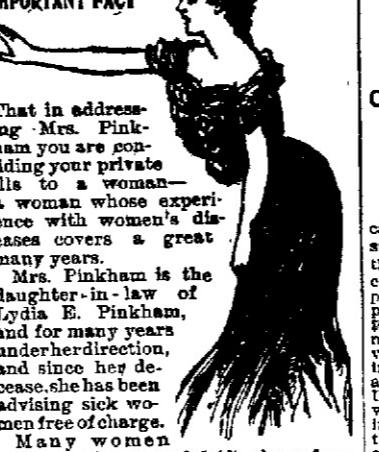

Never try to catch the ducks by the legs. Pick them up by the head or neck. Do not choke them, but carry them carefully in this way you will not injure them. Dry lime is more of an injury than a benefit to water fowls. Ducks especially dislike it, and cease to thrive if it is cast about their living quarters to any extent.

At the last, the ducks should be shut up in the house at night, and kept there until they have finished laying their eggs upon the floor in the morning. They have usually finished laying by 9 or 10 o'clock. If permitted to run about at night the greater portion of their eggs will be lost, as they do not hesitate to lay the eggs when swimming about in the water, or in any convenient locality where they may be at the time. They neglect a nesting place when provided for them, preferring to deposit their eggs in the water or upon the ground.

Damp and cold cause rheumatism in ducks. They should be provided with a dry spot upon which to sleep at night. An open shed covered with dry litter is fine for this purpose and should be provided for them at all times. Select good, strong, healthy parent ducks from which to hatch the ducklings. Over-size males and females are not the best producers.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge.

Many women are in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America, which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, I do not believe it will help me."

HE MAY LOSE HIS LICENSE

Vallejo Saloonkeeper is Cited Before Board to Explain a Robbery.

VALLEJO, Nov. 21.—Right on top of the license agitation that is causing the city to tremble comes the latest and a greater sensation. Fred Howes, who came here after the earl of the Chinaman, has been cited to appear before the chief of police Stanford, at the meeting of the trustees last evening, presented by the attorney general of California, claiming that after he had gone to sleep in Howes' place, that he lost \$30 under suspicious circumstances. Howes, a native of San Francisco, was granted his license on the recommendation of ex-Mayor P. H. Lynch of this city and Attorney Thomas Keough of San Francisco. The matter has caused much discussion.

MISS KISSMAN SUSTAINS INJURIES

Miss Sadie Kissman, a waitress in the Western hotel, West Berkeley, was thrown from a San Fran. Avenue car about 11:30 p.m. Wednesday, and painfully injured. Miss Kissman was seated on the outside of car No. 223, which lurched and threw her to the ground. She was picked up by other passengers, but when found again, it was found that she had sustained several severe bruises about the body.

CATARACH OF THE STOMACH

A Pleasant, Simple, But Safe and Effective Cure for it.

COSTS NOTHING TO TRY.

Catarach of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, tickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarach condition will have disappeared.

According to Dr. Harlanson, the safest and best treatment is to use after each meal a tablet composed of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ills., writes: "Catarach is a local condition resulting from a neglected cold in the head, whereby the brain becomes irritable and the nose becomes inflamed and the poisons discharge therefrom pass backward into the throat reaches the stomach, thus producing catarach of the stomach. Medical authorities prescribed for me for three years for catarach of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feelings.

I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets are the safest preparation as well as the simplest and most convenient remedy for this form of affection. Catarach of stomach, biliousness, sour stomach, heartburn and bloating after meals.

FRATERNAL LODGE NEWS

Notes and Happenings of Interest of Local Societies and Orders of the Week.

PIEDMONT LODGE NO. 172, U OF P

This lodge met in its new hall last Monday night and conferred the page rank upon one stranger. Next Monday night the lodge will confer the exalted rank and a special effort will be made to have some prominent members of the order present. Deputy Grand Chancellor Hood will be present and assist in the work.

The members were all pleased to see that old standby P J back again.

ORDER OF WASHINGTON

The work of the vice is almost letter perfect. Watch him in the 11th Street hall, celebrating their first session in their spacious new quarters in the new Pythian Hall corner Twelfth and Alice streets, by giving a grand ball. The assembly hall presented a charming appearance with its decorations of the national colors and gaily dressed dancers. At 11 o'clock all had journeyed to the banquet hall where the inner man was reposed. On last Friday evening a class of eight candidates were conducted through the mysteries of the initiatory degree and the application of eleven more were received to be brought in at the next session. No. 277 is in a flourishing condition and great interest is being manifested in it.

Friday evening November 23 all comrades are requested to be present as there is to be a class initiation and after business there is to be an evening of entertainment and dancing. Comrades are requested to bring friends. Refreshments to be served by the committee. District Manager Schearer is doing grand work and good reports are coming in from all points. He is still working for O of W and expects to continue doing so and by the first of the year will have 100 new members to the order.

OAKLAND HIVE, NO. 14

Oakland Hive, No. 14 L O T M had a regular review last Monday evening. At that time it was earnestly requested that every member of the lodge furnish some article for the bazaar which is to be held next Monday evening. The articles required include edibles, anything in the nature of fancy articles. All contributions of this kind can be left at Lady Austin's on Washington street or at the hall the day of the affair. A small admission fee is to be charged.

PYTHIAN SISTERS

The divine social given by Calanthe Temple No. 8 last Tuesday evening was a complete success both socially and financially and it is the intention of the Temple to have a little affair of this kind every month during the winter.

Next Tuesday evening there will be class initiation and it is expected the members will turn out in force. The members of the team are especially requested to be in attendance to add to the success of the first initiation in the new hall. Visiting members are always welcome.

OAKLAND LODGE NO. 16, I G O F.

The members of Oakland Rebekah Lodge No. 16 met in regular session last Saturday evening in Macabre Temple Sister No. 3 Adams. The esteemed pianist was presented with two beautiful hand painted pictures as tokens of the love and esteem in which she is held by the members of this lodge. Sister McPhail in presenting the pictures to Sister Adams recited an original poem speaking of her good nature and ever willingness to help the justiciable to have a good time. Sister Adams responded in a feeling manner. The remainder of the evening was spent in dancing. There were also two visiting sisters present. Sister Fry of Colorado and Sister McGinnis of Idaho. Danderine GREW THIS HAIR: AND WE CAN PROVE IT

MISS JEANETTE WALLACE,
343 W 14th STREET NEW YORK CITY

When the scalp throws off either dry or wet a gummy substance, it is an evidence of scalp disease and no time should be lost in correcting it. You certainly would not hesitate to take treatment were you to look at this matter through a magnifying glass. When highly magnified it resembles a wretched mass of insects. These creatures absorb the nutriment or life sap of the scalp causing the scalp to become dry and feverish, resulting in the loss of hair and finally baldness. Danderine works wonders in all such cases. It thoroughly eradicates all trace of scalp bacteria and makes the hair grow in usually strong and beautiful. One 25 cent bottle is enough to show you that it will do all this and even more. Now at all drugstores, three sizes, 25c., 50c. & \$1.00 per bottle.

OAKLAND CIRCLE W. O. W.

Oakland Circle No. 85 W. O. W. held its regular meeting on Saturday, November 17. Captain Neighton Halter in the chair. At this meeting there were nine new applications received and five candidates received the probation degree of this circle. This was put on in letter perfect style by offices and Dog of Team.

After the conclusion of the evening had been in session the hall was turned over to the entertainment committee who gave a very enjoyable evening of what was fun, beautiful, and brilliant chin prizes. Fourteen tables of whilst were provided to which neighbors and their friends sat down. The prizes were carried off by Negley's, Wolff, Lehrhoff, Stevens, and Rice. The circle is planning big things for the month of December also expect to have a large Christmas meeting during the month.

Nomination of officials will take place on Saturday evening November 24.

THE AMERICANS

The regular meeting of the 13th living fraternal order in the hall of the 11th Street Market was held on Saturday evening, November 17. The Lodge will meet hereafter on Friday evenings. Friday evening November 23 will be on the meeting. The meeting this evening will be a house warming with refreshments.

On November 17th, 1896, W. J. Courtney is seen busy building up the Lodge and the members will render him much assistance in getting up a list of charter friends.

A new golf club is to be formed and games etc. The election of officers will be held on the first meeting night in December.

KNIGHTS OF THE MACCABEES

It is now evident that the Argonauts are not the only Knights of the Macabees in the city, but notwithstanding the fact is still not doing good work.

The meetings the last three have been full of interest and profit to those who attended.

Knights of the Macabees are now in the city.

So the Lodge will meet hereafter on Friday evenings. Friday evening November 23 will be on the meeting.

THAW'S TRIAL WILL GO OVER

Probabilities are That Slayer of White Will not be Brought to Trial in December.

NEW YORK Nov. 28—Developments in court Thursday make it almost certain that Harry K. Thaw will not be tried for the shooting of Stanford White on December 3, the day recently fixed.

On the motion of District Attorney Jerome yesterday, the case was sent to the Supreme Court by Justice Greenbaum, who is sitting in the criminal branch. It had been originally planned to try Thaw before Recorder Gorin in General Sessions.

The change of program came as the result of the opposition of Clifford W. Hartlage, of counsel for Thaw, to the application for a special panel of 150 jurors from which to select the jury. When Mr. Jerome heard of the proceedings he withdrew his motion for a special panel and applied for the transfer of the case to the Supreme Court. It is thought now that the trial will not be started until January or may be later.

It thoroughly eradicates all trace of scalp bacteria and makes the hair grow in usually strong and beautiful. One 25 cent bottle is enough to show you that it will do all this and even more. Now at all drugstores, three sizes, 25c., 50c. & \$1.00 per bottle.

CATARRH A UNIVERSAL BLOOD DISEASE

Catarrh is usually worse in Winter because of the cold damp and sultry changing climate. Colds are contracted and neglected and as the secretions from the different inflamed membranes are absorbed into the blood the unpleasant symptoms of the disease commence. The nostrils are stopped up and a constant dropping of mucous back into the throat keeps up a continual hawking and spitting. The patient has dull headaches, ringing noises in the ears, and often slight fever and a depressed half sick feeling accompanies the disease. The blood becomes so fully charged with catarrhal matter that stomach troubles are brought on, the kidneys and bladder are affected, and if the blood is not purified the lungs become diseased because of the constant passage of impure blood through them. Catarrh cannot be cured with washes, sprays, inhalations and such treatment these cannot reach the poison laden blood where the real cause is located, and can only give temporary relief and comfort. A disease which affects the entire blood supply as does Catarrh, must be treated with a blood purifier. S S S is the best remedy for Catarrh, which has grown to be a universal disease. 60 LIVES LOST DURING SEASON

Reefs and Sand Bars of the St. Lawrence Prove Disastrous.

CHATHAM, N. B., Nov. 23.—Sixty lives were lost and nearly a score of vessels were swept to destruction on treacherous reefs and sandbars of the gulf and River St. Lawrence during the season of naval-

gation now drawing to a close. Of those who perished in these waters within the past year, nearly fifty met death this month, the most disastrous to shipping in the St. Lawrence in a dozen years.

The financial losses aggregated a quarter of a million dollars.

The most thrilling wreck this month was the Russian-rigged iron ship Sovinto of Melville, ten miles off the Norwegian bark Adonis of Arendal, eleven lives, and a Norwegian bark supposed to be the Magnet, fourteen lives.

SARAH'S HAPPY LITTLE HOME. Surrounded by Monkey Skulls, She and Her Baboon Eat Raw Food.

Sarah Bernhardt is said to subsist to a large extent on raw food. Her children and her room are like no other to be found in civilization. The kitchen is ancient and there the foods, when cooked at all are prepared in the rudest manner possible.

She's grain pones made from grain ground by hand as it was done centuries ago. If she can buy flour made from an ancient hand power mill and when in the world she goes many times the price paid for the choicer or present day flour. She wants her meats coo'd very rare and in the most primitive manner.

Her dining room decorations remind one of the mess room of a huntman or of an outlaw band. Peacock plumes and rich colors, such as the savage loves, adorn her sleeping room. All in Louis XV bed is hung a gossamer canopy made of unspun silk taken direct from the silkworm cocoon in the center is a great circular piece of brightest crimson satin. Many rows of monkey skulls mark the interspaces of the ancient tapestries.

With which the walls are hung. The eye sockets of the skulls are illuminated with electric lights which give them a most weird and savage appearance.

Once her voice was clear, which she has retained from a bird she captured in the jungle. She has substituted for this object of affection a hideous looking baboon, which is her constant companion. Some of the rats and bats which are looking pet are weighted low with great rings of solid gold. The beast often occupies a seat beside the divinity Sarah when she eats.

From the steps of savagery steps down witty, brilliant Sarah, and she starts to her performance at the theater. She springs into her cab and soon all civilized Paris, with visitors from far and near, being swayed by her never failing genius.

Her face is untroubled with wrinkles. Her manner is as vivacious, her step as spry and her voice as silvery as when she first electrified the world with her genius—from What to Eat.

When a girl shows an eagerness to get married, she is pretty sure to be a great deal older than she cares to have you know.

Lots of women who have the gift of gab can boast of no other attainments.

BURNED IN A GAS EXPLOSION

Zelick Oppenheim Lighted Match Near Leaking Pipe in a Store.

By the explosion of escaping gas in the rear of the store of J. Oppenheim at 950 Broadway at noon today, Zelick Oppenheim, 19 years of age, was severely burned about the face and hands. He turned about the face in his hands. The fire department was called out, but the blaze had already been extinguished. Young Oppenheim went to the rear of the store and thought he was passing the place where the gas was escaping. The explosion resulted and ignited some powder which was stored in bottles nearby.

The force of the explosion was so great that it wrecked a large safe in the rear of the store. For several days the gas has been escaping in the store, but it could not be ascertained where.

Mrs. J. Cutler's Letter.
Mrs. Botley and Lobay—Gentlemen: As I am thankful that I have been cured of nervous and stomach trouble by your treatment, I would like to give you my thanks to the two of you. I hope it will help some poor suffering woman to take courage and try your new method of treatment. I suffered so long and tried so many kinds of medicines and doctors that I was about giving up hope of getting cured. But I saw your advertisement, and it gave me confidence and I said, "I will try once more"—and how thankful I am to you for the wonderful cure of my son. Yours very grateful patient, MRS. J. CUTLER.

GUARDSMEN TO PRESENT DRAMA

Company F, Fifth Regiment, N. G. C., Will Play "Down In Dixie" Tonight.

WASHINGTON, Nov. 23.—Dr. Rosa C. Pacus, the recently appointed minister to this country from Salvador and Honduras, has returned to his home in Salvador. He remained here only a short time after his presentation to the President and Secretary Root, and it is rumored in diplomatic circles that he will not come back to Washington according to the terms of the recent treaty of peace and concord framed at San Jose by representatives of Guatemala, Honduras, Salvador and Costa Rica, all of those four countries agreed to accept the Presidents of the United States and Mexico as arbitrators of any disputes arising between them in the future. The treaty also provided that within three months after the completion of the treaty the four countries were to send a minister to both Washington and the City of Mexico. Honduras and Salvador complied with this requirement by sending Dr. Pacus, even though his stay was brief, and many members of the diplomatic corps think it unlikely that Salvador and Honduras will maintain regular missions in Washington. For many years these two republics have not kept ministers in the United States constantly.

TRIBE OF BEN HUR HAS HAPPY TIME

The open meeting given by Oakland court No. 6, Tribe of Ben Hur, last Monday evening at Forester's hall was a successful affair. Members and their friends turned out in force and all report having had a good time.

A short program was rendered and the room was filled with dancing and playing games. Sister Ralston made a big hit with her humorous recitation, being encored several times. Brother Ralston, Sr., showed the most skill in the pugilistic arts and was awarded the prize, a handsome china plate. After the contest refreshments were served by the committee in charge.

After a short business meeting next Monday evening the door will be turned over to the uniformed ladies' drill team.

CROSSED CONTINENT—25 TIMES.

An Aged Scientist of California Has Covered 300,000 Miles on Foot.

Home again after a tramp of one thousand miles from foot through the mountains and deserts of the Southwest, Captain Newton H. Chittenden, veteran archaeological explorer, is established in his bungalow in the Berkeley hills, presenting the results gathered in his latest journey into lecture form. He will deliver talks during the winter on the subject of his travels.

Captain Chittenden is the most picturesque of the many men of science, art and letters who have made up the colorful men in the university town. Past sixty years of age, he yet retains all the vigor and enthusiasm of youth. In his scientific explorations he has crossed the American continent twenty times and has traveled to and from up and down in this Western hemisphere, he has covered 300,000 miles on foot, with no companion save his faithful pack burro.

Not a trace of gray has touched the hair that reaches down to the captain's shoulders. Tall, supple and erect, he looks every inch the hardy mountainer and rugged plainman and one easily imagines he will carry out his decision to travel south this winter and more than likely he will return to a quiet living with his writings and his books.

Captain Chittenden spends most of his time investigating aboriginal life in North America. Of course, exploring the native relics of extinct civilizations. He has studied the Indians and their ways from every side, and to aid his study has lived among them and numbers the big chief of America among his personal friends. On the other hand, he is a member of the New York and California bar. He is a graduate of Columbia university.—San Francisco Bulletin.

A Mountain of Gold could not bring as much happiness to Mrs. Linda Wilke of Carrollton, Wis., as did one 25c box of Buckle's Arnica Salve, when it completely healed a running sore on her leg, which had tortured her 23 long years. PLANS FOR OAKLAND HARBOR

(Continued on Page Four.)

present that the Chamber of Commerce would meet this afternoon and prepare the resolutions and plans to wire to the River and Harbor Committee of the House, now having a pre-session at the national capital.

SPEECHES MADE AT BIG BANQUET

The Oakland Harbor Improvement Association gathered last evening at the dinner given in honor of the California Congressional delegation. At 6:30 o'clock the association and guests assembled in Castle Hall, at Twelfth

and Franklin streets, which was the only place available. Each guest was welcomed and made acquainted with others present. At 7 o'clock James de Fremery seated the assembled guests and members of the association around the table.

It was a representative gathering of Oakland's business and commercial men. Men who are at the head of the government, members of Congress, were seated near the head of the table, well-known merchants, railroad men, bankers, public officials, lumbermen, members of the press, representatives of construction companies, and other branches in the walks of life that are making this city the business and com-

mercial center of the west, were there to offer remarks and advice concerning the lengthening and widening of Oakland's waterfront facilities. Suggestions were offered that it will be well for the civic bodies to take notice of, when they ask Congress for an appropriation.

I do not want the mayor to grant franchises to John Smith or in any name, but to people who will render equal rights to all. Let the applicant for a franchise and his scheme be thoroughly investigated, so the public can be sure to have a common carrier.

Propose to bring ship and rail together. Have the great transcontinental lines capable of running cars to the bulkhead of the vessels that ply to the Orient. For once now the harbor people have agreed upon and come to the conclusion that they want a 500 feet wide and 25 deep channel from the bay to the wharves.

While the delegation, representing this section is not all present this evening, I will authorize Congressman Knowland to speak for the absent members. I have no doubt but what the plans can be carried through, and I think Congress will act very favorable on the same.

WILL PASS THE HOUSE.

I feel confident that the plan proposed by Mr. Casey this afternoon will pass the River and Harbor committee. I thank Mr. Casey very much for his efforts to prepare estimates and plans that meet with such satisfaction. We will immediately wire the resolutions to Congressman Burton and use influence to rush this through on the River and Harbor bill to be brought up during the first days of the coming Congress.

TREATED BURTON BADLY.

"We must have treated the chairman of this committee in the wrong manner," continued the senator. "For we had him here to banquets and entertained him immensely. I am afraid we fed him too much and not enough sight-seeing about the harbor. We next want a survey for thirty feet along the harbor."

THE BLUFF WORKED.

The Senator told of an amusing incident that occurred during his run in the state legislature for United States senator. He received a visitor to his office one morning, who represented the city south of Market street.

"All I wanted," said the senator, "was the votes of the members of the legislature, but my Irish friend suggested that all the boys in his part of the town were for me and that the committee would be thankful for \$50. I told the man who stood before me that I would like to, but an act passed in the last legislature, made it impossible for any senator to donate or give money in a campaign that would bring votes. My friend of course did not want to do anything not in accordance with the law, so he excused himself and backed out."

TEN AGAINST FORTY.

"The California delegation has only ten men in Congress to fight for bills against the forty congressmen of New York or Pennsylvania. I will make a good fight for the Oakland waterfront, even though I am not a property holder. Few to the line, when you get appropriations. Do like James N. Gillette. He started as a woodsmen and laborer; he hewed to the line, and now will occupy the seat at the state capital."

"Mr. Casey hewed to the line, and I hope to report that all of his plans will be carried out."

SENATOR KNOWLAND SPEAKS.

Toastmaster de Fremery called next upon the California delegate to the lower house of Congress, who said in part:

"I have found in my brief political career that much can be learned from Senator Perkins. He gets off very easy in many instances. Things get through the Senate, but are held up in the House. This makes the people expect me to do my way, asking explanations."

"I am glad to meet the Oakland Harbor Improvement Association, and like its methods. I will now know more about my work at Washington, and will do what I can for the dredging of Oakland harbor as well as other California ports. No other committee in the House has such a head as that of the River and Harbor commission. Mr. Burton is not a friend to Oakland, and will not be any too willing to create an influx of trade."

MAYOR MOTT SPEAKS.

Mayor Frank Mott was the next toast-maker.

"I want to join the good work of

building up Oakland, and I am positive of its resources and opportunities.

It is situated better than any other port in the world. The course

to create an influx of trade."

SENATOR PERKINS SPEAKS.

Senator George C. Perkins was all smiles as he arose to tell how glad he was to be the guest of this body. He said in part:

"I am always glad to be around the banquet board with people of the Atheneum of the Pacific. My colleagues have worked together in making this harbor the commercial center of the west.

We have much to contend with in the halls of Congress. There are eight of us from California to get appropriations against thirty-nine from New York and thirty-eight from the State of Pennsylvania. We are fortunate indeed when we are able to put our finger in the treasury and draw out money to expend for the improvement of the Oakland waterway."

BELT LINE NEEDED.

To work for the benefit of Oakland and to invite eastern railroads,

we must have belt line to touch our waterfront. Not a road that one company shall own or control, but a railway which the municipal authorities

"In my thirty-four years residence here I never saw them agree to any one project so nice as the proposition brought up today. Oakland's area of water front lands has at last been realized and her people are coming to the front to push real improvements and take a stand to handle the increase of shipping."	
H. C. Capwell told of his eighteen years of experience and was overjoyed with the new life of the work and the harvest it will reap.	

At a late hour, Toastmaster de Fremery thanked all for their presence and hoped the words would sink deep and all would pull for Greater Oakland.

other smart and interesting toast. He said that if the Republican administration fell down on the proposition, leave it to the Democratic party.

"I had a friend," said Mr. Fitzgerald, "who came to Oakland to escape the fire. He wished his wife, who was in the East, to learn of his safety, so he made the remark that he would break the news gently to his better half and inform her that he was living in Oakland.

PAWN TICKET GAME

STOPPED BY POLICE

CHICAGO, Nov. 23.—In the arrest of William Burt in the Palmer House the police believe they have in custody the last of the men indicted for operating one of the biggest swindling schemes known in police circles.

With Burt in the indictment are Edward Baumann, Abraham Lipman, Charles Meyers and "Tommy" O'Neill. The five men were indicted by the March grand jury. All but Burt were arrested soon afterward and gave bonds for their appearance.

Advertisements were placed in daily papers asking for loan of a sum of money ranging from \$200 to \$400. Several would be given by one of the three men in the form of a pawn ticket for diamonds valued at \$500 or \$600. Many persons it is said lent the three men money and accepted the tickets. When the holder of the tickets came to withdraw the amount he immediately went to the pawn broker, paid the amount due on the articles pawned and accepted the goods, worth less than the amount of the loan.

Get rid of the Lard Habit

Cottolene makes pies and pastry digestible—it makes crisp, flaky pie-crust—the kind that will melt in your mouth rather than stick in the pit of your stomach.

There is no getting away from the fact that lard is the fat of the pig. There was a time in the olden days when lard was made from a particular part of the pig, the selected part—it was called the "leaf"—that is, the peritoneum; but, with the growth of the industry lard is now thrown on the market made from pig-fat from all portions of the animal, and lard, today, is not as good as the lard of years ago—in fact it is more indigestible, and more unhealthy.

Cottolene is a cleanly vegetable product

made from pure, refined cotton seed oil. It makes food palatable, digestible and healthful.

Cottolene is the purest and best shortening. It is not a substitute for lard, but an improvement upon lard or any other shortening. When you accept a substitute for Cottolene you are not getting your money's worth. Cottolene is the original and only shortening on the market. It is preferable in more ways than one—in purity, results and healthfulness.

Try Cottolene for a short time, and you will find that your digestion is noticeably improved. Follow directions given on the pail.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

VICTORY TO CROWN EFFORT TO RETAIN REVENUE OFFICE

Senator Perkins and Congressman Knowland Have Worked Hard for the City.

It would look as if the efforts of the Chamber of Commerce to have the internal revenue office retained permanently in this city would prove successful. Senator Perkins and Congressman Knowland have been working hard in conjunction with the chamber to have the order removing the office the first of the new year revoked, and the following correspondence received by Senator Perkins is of the same opinion. In the letters to the Senator Collector Lynch asserts that it will be saving to the government to have the Oakland office retained as will be seen by perusal of the accompanying correspondence.

to your favor of the 12th instant in which you ask for statistics of the amount of business transacted in the Oakland stamp office and also an expression of opinion in regard to the necessity or advisability of maintaining the same permanently, was duly received, and I have the honor to report as follows:

Receipts of stamp office by months April 23-30 \$ 3,865.75 May 10,941.87 June 11,977.33 July 31,977.33 August 11,890.80 September 12,542.84 October 14,390.96 November 1-15 7,114.22 Total \$103,990.27

Number of wholesale liquor dealers 62 Numbers of rectifiers 20 Number of brewers 8 Number of cigar manufacturers 70 Number of distillers 3 Number of wholesale liquor dealers' stamp issue

April 82 May 805 June 1,752 July 2,154 August 2,159 September 1,940 October 2,230

These statistics show a constantly increasing amount of business and I am fully convinced in view of the phenomenal growth which is taking place in Oakland and vicinity that this increase will continue to such an extent as to fully warrant the maintenance of a permanent stamp office at that place.

Even with the present business, if the office were to be discontinued, it would be impossible for the main office to properly perform the additional work of issuing the wholesale stamps and other work with its force as they will be constituted January 1.

In this connection I beg to call your attention to my letter to you of October 10 (in relation to the question of the issuance of wholesale liquor stamps) as stated in that letter the Honorable Com-

missioner of Internal Revenue in his annual report for the year 1905 recommended that a law imposing a tax of 20 cents a package be enacted for the issuance of these stamps. In my judgment such a law should be passed for the reason that a very considerable portion of these stamps are procured for the purpose of concealing the identity of rectified spirits for which a large amount of labor is imposed upon the Internal Revenue office in the examination of packages.

In conclusion, I desire to say that I can see no economy in closing the Oakland office for the reason that there is no rent to be paid and the additional help will be required in the principal office in San Francisco, and, secondly, because of the transfer of business from the latter to the former office, sufficient in amount to occupy all of our deputies' time.

(Signed) JNO C. LYNCH, Collector

San Francisco, Cal., Oct. 19, 1906
Honorable George C. Perkins, United States Senator

Sir: Enclosed I send you a copy of the commissioners' letter of October 10 concerning the maintenance of a stamp office at Oakland.

You will notice what the commissioner states in reference to the issuance of wholesale liquor dealers' stamp.

"You will understand that the wholesale liquor dealers pay nothing whatever for the stamps issued to them and that it is a heavy expense to the government. You will see my views on this subject by reading my annual report. In the commissioners' report for the fiscal year ending June 30, 1905 page 3 he takes up the subject of the issuance of this class of stamps and recommends that a similar proposal be made for each stamp issued to rectifiers or wholesale liquor dealers for use upon packages prepared and sent out by them. From this source an increased revenue of some \$760,000 to \$800,000 could be produced."

In this connection I would state that the cost to the rectifiers and wholesale liquor dealers would be 20 cents for each stamp, and to the manufacturer, and as a matter of fact, such wholesale and rectifiers should pay 20 cents to cover the cost of supervision and the issuance of such stamps. If such legislation passed, there is no question but what the commissioners would be justified in maintaining the Oakland office. Respectfully,

(Signed) JNO C. LYNCH, Collector.

AGED WOMAN IS INSANE

Jane A. Lee Lost Reason on Account of Family Troubles and Unhappiness.

Aged and feeble, Jane A. Lee, 78 years old, who lived at Berkeley, was committed to the Stockton Insane Asylum Thursday, it having been decided by the examining physicians that the woman is demented. Loss of property and worry over family troubles are ascribed as the cause of the woman's loss of mind. Drs F. R. Woolsey and Susan J. Fenton were the examining physicians.

The complaint charging the aged woman with insanity was sworn to by Ed F. Hitch, who stated that Mrs. Lee tried to kill her Berkeley residence and wandered about the college town listlessly walling about her property and the trouble brought upon her by her children.

NEW YORK, Nov. 23.—Recommendations made by the State railroad commission designed to relieve somewhat the Brooklyn Bridge crush, found a startling echo yesterday when Vice-President Calderwood of the Brooklyn Rapid Transit Company declared that the bridge was being worked to its limit and that his company lived in expectation of a great calamity there.

CATCH PLUMS OF ELECTION

Beneficiaries of District Attorney and Auditor Are Named for Berths.

District Attorney-elect Brown and Auditor-elect George Pierce have announced today the names of those to whom would fall plums, fruit of their success at the recent election.

Deputies to be appointed by District Attorney Brown are as follows: R. C. Staelin, W. H. L. Hynes, W. H. Donohue and E. W. Deebot.

Misses Williams, J. J. White and Helen Long will be the deputies appointed by Auditor-elect Pierce.

The other successful candidates, upon being asked whom they intended to appoint declared they were not ready to publish the names of their intended appointees or make the announcement that there would be no changes.

This special will no doubt create more excitement than any of our previous specials, as it is especially attractive in quality, design and price. Made of highest grade pottery, fire glazed inside and out, all edges perfectly smooth. The tall tankard measures nine inches high; has broad base and tapering toward the top. The other style measures about eight inches high and has a swelled body flaring at the top. They are richly embossed in beautiful floral designs in colors. They can be used for many purposes, such as for water, milk, as steins, and for decorative purposes. They come in several different colors. They are really beauties, and similar ones are sold around town as high as seventy-five cents each, but everybody can get one here Saturday from five to nine p. m., if they last, for twenty-five cents each. TON OF DEAD FLIES FEED FOR CHICKENS

A ton of dead flies was the strange cargo a vessel from Brazil recently unloaded at the London docks. Dead flies are admirable food for chickens, birds in captivity, and captive fishes, but there being no flies to speak of in England those in search of this delicacy for their animals have to send to Brazil, where there are flies on everything.

The river Amazon abounds with flies. Brazilians float down the stream in boats and scoop in millions of the flies which circle in dense clouds just above the water's edge. The flies are killed, dried thoroughly in the sun, and packed in bags.

Dead flies constitute one of the richest of foods for animals. For chickens the flies are mixed with other ingredients, such as millet and corn. By themselves the flies are too rich, but a small quantity of them has a most tonic effect.

Two years ago the Brazilian government stopped the exportation, being afraid that the fish in the rivers would suffer by being deprived of the fly-food. But the prohibition has been removed. Formerly dead flies sold at 10 cents a pound, but the demand has grown and the supply lessened so that 30 cents a pound is charged. One ton of flies fills a large room, as there are only 15 pounds to a bushel.
